OBSERVE 'FOURTH' SANELY IN CITY

MARYVILLE RESIDENTS PICNIC, REST, VISIT AND FROLIC.

NO CELEBRATORS ARE INJURED OVER COUNTY

Reports Indicate Everyone Paid Homage to Independence Wisely All Three Days—Ball Games Draw.

The most sane Fourth in the history of Maryville perhaps was observed Sunday and yesterday by residents and visitors by visiting, picnicking, fishing and witnessing ball games. A meager attempt was made, as usual, by the small boy to observe the day in the good old way with noise and hurrah, but the effort was amusing.

With the strict ordinance on sale and discharge of fireworks placed by the city, and little encouragement in such endangering practices from the parents, the youth soon gave up the effort to imitate the European war.

There was little trouble by the police or county officers either in keeping order over the county, as everybody seemed to be observing the birth of independence in a strictly sane and safe way. In fact, the two days passed off more like Sundays in Maryville than as a day for a big hurrah.

Some Went Out of City.

Many went to Clearmont and Burlington Junction Saturday to witness the celebrations there, while quite a number left the city for the two days' holiday, either to visit home folks or relatives and friends or to while away the time fishing and enjoying outdoor life.

The two base ball games played by the Federals and the St. Joseph Rapids at Federal park Sunday afternoon and yesterday afternoon also drew large crowds, somewhat larger than heretofore. The Federals won the Sunday game 1-0 in a ninth inning rally, but lost the game yesterday 3 to 4.

Frank Ham pitched for the Federals in the game Sunday, while Bert Hubble of Barnard pitched yesterday for the local nine.

One of the enjoyable Fourth of July picnics of the community planned at the Normal grove Sunday by the Knights of Columbus and their friends was postponed until next Sunday

Church Holds Picnic.

The Wage Earners and Homemakers classes of the Buchanan Street Methodist church held a picnic and dinner at the Normal yesterday afternoon, with features of a basket dinner, games and speaking.

Ravenwood also held a quiet but interesting celebration at the Ravenwood park yesterday afternoon, with a basket dinner constituting the chief attraction.

The Fourth Regiment band was in much demand for Fourth of July celebrations. The musicians went to Burlington Junction Saturday to assist in the exercises, while they went to Lenox, Ia., yesterday.

No serious accidents to children or grown-ups were reported to have occurred over Nodaway county yesterday as a result of celebrations.

Business at Standstill Yesterday.

Yesterday was virtually a holiday for all in Maryville, though a few merchants and business establishments remained at the fore to receive patrons a few hours in the morning. The banks were closed all day. No newspapers were issued. The postoffice was closed virtually all day, there being no rural and only one city mail delivery made yesterday.

City and county officials also took a day off yesterday in most cases.

Is Fined on Two Counts.

Edwin Huff was fined $1 and costs for drunkenness and $5 and costs for disturbing the peace when he pleaded guilty to both charges in police court yesterday. The costs in each case amounted to $6.10.

JACKSON FOR BETTER ROAD

Township Delegation Petition for Change of Bridge and Highway West of Ravenwood.

A delegation of about twenty farmers and business men of Jackson township petitioned the county court in person this morning for more bridge improvements in that township this year. One of the pleas was for improving the public road west of Ravenwood and the Platte river.

It was planned by the petitioners to move the present steel bridge now across the Platte about ten rods further north and to also change the highway across the west bottom, so as to bring it entirely on ground that does not overflow. This would place the road entirely on the section line.

The county court, however, refused to consider the moving of the bridge until the highway leading to it was newly established as planned. This would save the county the moving cost until next year. It is estimated by W. M. Blackford, presiding judge of the county court, that the transfer would cost about $650.

Plan Other Improvements.

The county court has, however, decided on several culvert improvements in Jackson township, while several other improvements may be provided from this year's funds. Several repairs of bridges and culverts which span Honey creek are especially urged by the petitioners here today.

The court previously decided to build a 16-foot steel bridge along Key Farnan's farm, along the Jackson-Jefferson townships line; to install a 4 by 4 foot culvert three miles southwest of Ravenwood and also a similar one one-half mile north of the Sweet Home school.

WANT TO EXTEND LINE.

Mound City Firm Would Run Electric Wires to Graham and Skidmore.

Request that it be allowed to install electric current transmission lines from Maitland to Graham and Skidmore, was made to the county court today by E. M. Miller, president of the Mound City Electric Light and Ice company.

That firm proposes to extend its electric lighting service to those two Nodaway county towns this month.

LOCAL BOYS WIN BALL GAME.

Maryville Giants Defeat Burlington Junction 9-7—Lose One 1 in 8.

The Maryville Giants, a base ball team composed of boys less than 15 years old, defeated a boys' team of Burlington Junction at Burlington Junction Saturday afternoon by the score of 9 to 7. This makes eight games played this season by the Giants, of which seven have been victories.

The boys have now issued a challenge for any boys' team, wherein the boys are 14 years old or less.

Julius Manns pitched and Bryan Sells caught in the game Saturday.

WEATHER CONDITIONS GOOD.

Independence Day Ushered in by Fair Skies, Though Chill Atmosphere.

Despite the fact that Saturday bade fair to be inclement and chilly, Independence day Sunday was ushered in by fair skies. The air really was slightly "fresh" all day, though, and wraps and heavy weight clothes were more welcomed by the celebrators than the summer flimsies.

Yesterday, the real day of celebration, was an even better one in which to celebrate, for the skies were not only clear but the chill of the atmosphere also had been removed to a great extent.

CONTINUE ASSAULT CASE.

Trial of Frank Coffin on Charges by Wife is Deferred.

The trial of Frank Coffin, charged with common assault, July 2, on his wife, who is seeking a divorce from him, was continued from Saturday until July 17, before Justice W. L. Johnson. Coffin is out on $200 bond.

Mrs. C. E. Gregory left Saturday for Clearmont to spend several days visiting relatives.

MARYVILLE WON FIRST 1-0; LOSE SECOND 3-4.

PLAY STANBERRY NEXT

Invincible Red Sox Come for Game Sunday—Big Crowd Witnesses Clean Holiday Playing.

The Maryville Federals put up some of the classiest base ball playing of the season here before packed stands at Federal park Sunday afternoon and yesterday afternoon against the St. Joseph Rapids. It is true they lost the game yesterday, after winning the initial one 1 to 0, but even yesterday the playing was exceptionally good, and it was only in the eighth inning that the Rapids went ahead, by one score, of the localites.

Each local base ball specialist was on his toes from the start to the finish. A hearty encore each received and none failed to respond. In the close game Sunday, it was goose eggs to goose eggs until the last of the ninth, when Harry Tilson got on first through a wild throw by the third baseman, took second and stretched himself to third on a sacrifice hit by Carmichael, and finished the course on a single by Scott.

Play Stanberry Next.

In the game yesterday the two teams played close together until the eighth inning, when the visitors got a lead of one run, which the home guard could not overtake. Brittain made a rather nifty little play yesterday when he threw a runner out at the home plate while Woodard got himself a crown in the left field with worth-while outfielding.

The lineup yesterday was: Morris, ss; Tilson, 1b; Carmichael, c; Scott, 3b; Ham, p; Bailey, 4; Brittain, 8; Woodard, 7; Hubble, 1. Hubble did good work in the bog by striking out thirteen men, while Ham did equally as good in the saucer Sunday.

The Maryville Federals will play the fast and almost invincible Stanberry Red Sox at Federal park here next Sunday afternoon. This gives promise of being the hardest fought one so far this season, Manager Cleve Funk says.

The score in Sunday's game:

Federals.	AB.	R.	H.	O.	A.	E.
Morris, lf	4	0	1	2	0	0
Tilson, 1b	0	1	0	6	0	1
Carmichael, c	4	0	1	13	1	1
Scott, 3b	4	0	1	3	2	1
Bailey, 2b	3	0	0	1	3	2
Woodard, rf	2	0	0	0	0	0
Ernst, cf	2	0	0	5	0	0
Wiles, cf	1	0	0	0	0	0
Conley, ss	3	0	0	0	1	0

Totals	32	0	5*	25	14	2

*One out when winning run was scored.

Summary—Two-base hits, Gibson; left on bases, St. Joseph 10, Maryville 3; bases on balls, by Palmer 1, by Ham 3; batsmen hit, by Ham 1. Struck out, by Palmer 6, by Ham 11; umpire, Keck.

The score yesterday:

	R.	H.	E.
Rapids	0 0 1 0 0 2 0 1 0—4	8	5
Maryville	0 0 1 0 2 0 0 0 0—3	4	3

Summary—Runs, Peery, Borsch, Bliley, Garvey, Britton 2, Woodard; two-base hits, Scott, Hubbell; struck out, by Hubbell 12, by Gibson 3.

ACTED IMPROPERLY; EACH FINED

Pearl Ham and Pearl Roach Assessed $25 Each in Police Court.

Pearl Ham, a woman, and Pearl Roach, a man, were each fined $25 and costs of $6.10 in police court yesterday morning when they pleaded guilty to a charge of improper conduct.

Spend Summer at Home.

Miss Frances Hartman, who has been attending the University of Missouri the past term, and who formerly was principal of the high school at Hot Springs, S. D., is spending the summer vacation with her father, George A. Hartman.

Lester Thompson of Maitland spent the week end visiting friends in Maryville.

BURLINGTON WON AND LOST

Junction Team Shut Out by Hopkins 0 to 8, But Defeated Shenandoah 4 to 1.

The Burlington Junction base ball team won from Shenandoah, Ia., at Burlington Junction Sunday 4 to 1, but were shut out 0 to 8 by Hopkins at the Junction diamond Saturday. Hopkins played rings around the home team all through the game, giving the Junctionites only a few chances at scoring.

The score, Burlington against Shenandoah:

Shenandoah .....0 0 1 0 0 0 0 0 0—1
Burlington Junction..0 0 0 0 3 0 1 0 *—4

Batteries—McKee and Stinger; Hollis, Vaughn and Hagey. Umpire—Fred Greenelsh. Time—1:20.

NABBED; WEDS COMPLANIANT

Kenneth Daniels, Charged With Seduction by State, Marries Girl Before Trial.

A marriage of the prosecuting witness a few minutes before his trial was scheduled to begin automatically caused a state charge of seduction under promise of marriage, placed against Kenneth Daniels, to be dismissed before Justice W. L. Johnson this morning.

Daniels, who is 26, was arrested at Rosedale, Kansas City, Kan., last Friday by the constable there on advice of Constable Robert Jones here. Jones went to Kansas City Saturday and returned that night with Daniels.

On arraignment Daniels pleaded not guilty and his preliminary trial set for 10 o'clock this morning before Justice Johnson. He was released on $500 bond pending the trial.

Shortly before time for the trial, Daniels appeared in Justice Johnson's court with Miss Ethel A. McClain, 16 years old, prosecuting witness, waving a marriage license.

So the pending trial was changed into a marriage and the defendant and prosecuting witness united at the time the trial was supposed to be in progress. Daniels said he had intended to come to Maryville soon to marry Miss McClain. He has been employed with his brother in painting and paper hanging in Kansas City since leaving here last year.

The bride is the daughter of John McClain, South Saunders street.

TO SPAN NODAWAY, $2,476

County Court Awards Contract to Replace Bridge Washed Out—Six Weeks to Finish.

The Illinois Steel Bridge Building company was awarded the contract by the county court this afternoon to build a steel bridge over the new channel of the Nodaway river west of Burlington Junction, for $2,476. It is to be finished within six weeks, according to contract, and will replace the wood structure recently washed away by floods.

There were four other bids submitted. They were: Decatur Bridge company of Decatur, Ill., $2,535; A. L. Seibert, Rochester, Mo., $2,750; Kansas City Bridge company, $2,673; Standard Bridge company, $2,524. Seibert constructed the new tri-county bridge on the Nodaway, near Graham.

Each of the bids submitted were for an 108-foot span with 18-foot approaches on each end and with a 14-foot roadway. It also called for 3-foot steel casing piers with concrete filler at each end, to be 28 feet in length.

The court also considered a proposition to build a 112-foot bridge

The bridge will be almost an exact duplicate of the one recently constructed over the Nodaway between Elmo and Clearmont, which cost $2,646, or $170 more than the one decided upon today.

A loan of $2,600 with which to pay for the new bridge was guaranteed recently by the business men of Burlington Junction. It is to be returned without interest by the county with one and one-half years.

Gospelers to Harmony.

A gospel team of the First Baptist church conducted services at the Harmony church Sunday morning. The members of the team were Senator Anderson Craig, C. L. Gann, Ed Brewer, David Ferries and Prof. P. O. Landon.

Visited at Sheridan.

Prof. and Mrs. W. L. Butts spent the Fourth at Sheridan, visiting at the home of C. J. Hopper, president of the Bank of Sheridan, and his family. Prof. and Mrs. Butts formerly taught in the Sheridan schools.

Visiting at Council Bluffs.

Mrs. J. J. Glenn went to Council Bluffs, Ia., Saturday night to visit several weeks with relatives.

BUTTER NUT IS COMING.

RUSS MAKES STAND

SLAVS FIGHTING DESPERATELY TO STOP TEUTONIC ADVANCE.

ALLIES LOST IN WEST

Germans Win Over French in Forest of Le Pretre, Berlin Claims—Dardanelles Attack Resumed.

London, July 6.—Much activity was apparent in all the three elements where the warring powers come into actual contact, but reports as to results generally were contradictory.

Berlin uses a "reliable source" for the denial that a German battleship of the predreadnaught type was sunk by a Russian submarine at the month of Danzig bay, but the official report from Petrograd on the occurrence is accepted as correct by London, where resumption of the naval operations in the Baltic has been watched with intense interest.

Reading between the lines of the various official reports it is not difficult to deduce that the Russians are making desperate stands between the rivers Pruth and Dniester. Grand Duke Nicholas, commander in chief of the Russian forces, reports that the fighting in southern Poland is of the most desperate character, while Vienna admits that the Russians are attacking in strong force. Austro-German sources, however, declare this effort to be a forlorn hope.

General von Linsingen's army, after a fortnight of terrific struggle, is reported by both Vienna and Berlin to have reached the whole front of the Zlota Lipa river, in east Galicia.

Admission that the Teutonic allies have advanced on the front between Krasnik and the river Vieprz is made in a statement issued at Petrograd.

German Official Statement.

Berlin, July 6.—The German army headquarters' statement says:

"Western theater: A British attack north of Ypres and a French attack against Souchesz were repulsed.

"On the western end of the forest of Le Pretre the Germans stormed 1,500 yards of the enemy's position and advanced for a distance of 400 yards. We made prisoners of about 100 unwounded Frenchmen, among them the staff officers of one battalion, and took two field guns, four machine guns and three light and four heavy mine throwers.

"The bombs thrown by aviators on Bruges, Belgium, fell in the neighborhood of the most valuable monuments of the town.

"Eastern theater: Teutonic allied troops under General von Linsingen have reached the whole front of the Zlota Lipa and have cleaned the west bank of Russians. In almost a fortnight of fighting against strong enemy positions we have forced a passage across the Dniester river and have driven the enemy from position to position."

French Official Report.

Paris, July 6.—The French war office statement says:

"In the region to the north of Arras two attempts at attack on the part of the enemy, preceded each by a violent bombardment, were checked by us. One was directed particularly against our positions in front of Souches. The Germans came out several different times from their trenches armed with grenades and bombs. We, however, compelled them to withdraw, leaving many dead on the ground. The other took place at 'The Labyrinth,' but it was at once stopped by our fire. The Germans assumed the offensive along a front of about three miles, stretching from Fey en-Haye to the Moselle. To the east of Fay en-Haye and in the western section of the forest of Le Pretre, along a front of about two-thirds of a mile, they were successful, after a very violent bombardment, in again gaining a footing in their old lines recently taken by us. But they found it impossible to move beyond these lines.

"Farther to the east on a line running from La Croix-des-Carmes to the village of Riept, on the Moselle, the Germans failed in an attack and they suffered very heavy losses."

MAITLAND BEATS SKIDMORE.

Nodaway County Team Lost Game on Foreign Field 2 to 4.

The Maitland base ball team defeated the Skidmore team at Maitland Sunday afternoon by a score of 4 to 2. Bundy pitched for Maitland and Thieman for Skidmore.

Week-End Visitors Leave.

Mr. and Mrs. A. E. Holmes of Kansas City, who spent the week end in the city, the guests of Mr. and Mrs. W. A. Burris, left this morning for a visit in Chicago.

Visiting at Shenandoah.

Miss Mary Stundon left this morning for Shenandoah, Ia., to spend the coming month visiting at the home of her uncle and aunt, Mr. and Mrs. Robert Lund.

FIRE DOES $175 DAMAGE

Defective Flue Fires Dwelling of Mrs. Heath Masters, First and Fillmore.

Fire, supposedly from a defective flue, caused a damage of between $150 and $200 to the two-story frame dwelling house owned by Mrs. Heath Masters, First and Fillmore streets, at 9:30 o'clock this morning. Prompt work of the fire department prevented further loss and perhaps the total destruction of the building.

The residence is occupied jointly by Perry Smith and Ernest McLain. The fire started in the roofing and extended to the upper story rooms. The most damage was to the roof and walls upstairs. All furnishings had been removed.

MRS. A. D. M'HENRY DEAD.

Funeral Services Held This Morning at Home of Mrs. C. L. Wright.

Funeral services for Mrs. Sarah Lucretia McHenry, 40 years old, wife of A. D. McHenry of St. Joseph, who died held at the home of her mother, Mrs. C. L. Wright, on North avenue, at 10 o'clock this morning. The service was brief and was conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church, assisted by Dr. W. B. Christy of the First Methodist church. The service was concluded at Miriam cemetery, where the body was buried.

Mrs. Wright died very suddenly at 5 o'clock Sunday morning. The funeral service was held at the home at 3 o'clock yesterday afternoon by Dr. Charles Petrie, pastor of the Hoffman M. E. church of St. Joseph, and the body was brought to this city last night and taken to the Wright home.

Mrs. McHenry was very well known in this city, where she spent her girlhood. She is survived by her husband, two daughters, Gladys Elizabeth, 14, and Zoe Mabelle, 12; her mother, Mrs. C. L. Wright; four sisters and two brothers. The brothers and sisters are Mrs. Charles Wilson of Westville, Okla.; Mrs. James Stevenson of Colorado Springs, Col.; Mrs. H. D. Snyder, Mrs. R. C. Seal and George Pat Wright of Maryville, and H. B. Wright of Sedalia. All were present at the funeral with the exception of Mrs. Stevenson and H. B. Wright. Mr. McHenry's mother, his sister, Miss Daisy McHenry of Stanberry, and his brother, Ellis McHenry, and wife of Wagoner, Okla., were in the city today to attend the funeral.

Mr. McHenry and daughters and Mr. and Mrs. Wilson of Oklahoma will remain for a time with the Maryville relatives.

K. OF C. PICNIC POSTPONED.

Annual Gathering of the Lodge to Be Held Sunday, July 11.

The annual picnic of the Knights of Columbus scheduled for Sunday at Normal park was postponed until next Sunday. The deferment was made on account of the bad weather and park conditions.

The gathering will be held July 11, and all plans made for the picnic on July 4 will be carried out the same at that time.

Addresses will be made by Judge F. M. Ryan and the Rev. Father Flemming of St. Joseph and all amusements announced for the event will be carried out.

Returned from Eastern Trip.

S. G. Gillam and son, Forrest, returned Saturday noon from an eastern trip of three weeks. They visited New York, Boston, Washington, Chicago and a number of other places.

Home to Spend Fourth.

A. D. Arnett and Erick Zanders, who have been employed in decorating the new home of W. H. Runyon at Coin, Ia., came to Maryville Saturday and remained until after the Fourth.

539 IN NORMAL; BREAKS RECORD

BIGGEST SUMMER ENROLLMENT DIVIDED INTO 123 CLASSES.

57 ARE OF COLLEGE RANK; 66 SECONDARY

Large Number of State Students Are High School Graduates, Registry Indicates—Many in Athletics.

The enrollment for the summer session of the State Normal school reached a total of 539 yesterday, according to President Richardson. This breaks all previous records in Normal attendance. The record attendance last year was 520.

The daily work of the institution is distributed over eight class periods, including a total of 123 classes with a total membership of 2,376. Of the 123 classes, 57 are of college rank, which indicates that quite a large portion of the summer school students are graduates of four-year high schools or have work in excess of that.

The work of the students is distributed as follows: Department of education, 268 class memberships of college rank, 244 of secondary rank. In the department of home economics, 101 students of college rank are registered.

In the several phases of science, including physics, chemistry, geography, biology, 1200 are enrolled in college rank classes, 159 in classes of secondary rank.

In the department of English, including reading and public speaking, 173 students are in classes of college rank, 243 are in classes of secondary rank.

In foreign languages 17 students are doing work of college rank, 13 of secondary rank. In history and civics, 80 students are registered in classes of college rank, 217 inclasses of secondary rank.

Mathematics, 43 are enrolled in biology, 120 are enrolled in college college rank, 217 in classes of secondclasses of college rang and 193 are enrolled in classes of secondary rank.

Ninety-eight students are registered in bookkeeping, penmanship and typewriting classes; 148 are registered in classes of the department of art; 50 are enrolled in the manual training classes; 34 in organized classes of physical education, while 30 enrolled for base ball practice and 51 for tennis. Ninety-four students are enrolled in various classes in music.

The large number of enrollments in classes of secondary rank in history, mathematics, English and education is due to the demand for approved grades in these subjects to be applied upon county certificates.

STEAL PICNICKER'S WATCH.

Frank Mathes Misses Jewelry from Coat After Frolic at Normal.

A watch and chain were stolen from the coat of Frank Mathes about 6 o'clock last night at the Normal ball grounds stand, according to report made by Mathes to the police. No arrests in the case have yet been made.

Mathes was a member of the Buchanan Street Methodist picnic and had lain his coat on a seat of the grandstand at the ball grounds during the afternoon. When he returned for the apparel, the watch and chain were missing.

WEATHER BUREAU AIDS ALL

Government Spends $1,600,000 Yearly in Department—How It Is Done.

Farmers, shippers, merchants, lecturers, teachers, florists, candy makers, circus men, picnickers, fruit growers, traders, real estate men—to almost every man and woman, profession, business and trade is the weather bureau of some service says the University Missourian. It continues:

We read the weather reports in the paper and the ones on the small cards posted in their envelope holders, or glance at the map of the United States with mysterious curved lines—some continuous, some dotted—running over it and read below: "For Missouri" and then "Weather Conditions in General." If the indications are that warm weather will follow the next day the farmer plans to plant, reap or build fences accordingly. The shipper figures on a larger amount of ice in the refrigerator car or more water for his live stock, the merchant advertises his foods and garments for warm weather, and so on through the whole line of people the weather man serves.

Making the Weather Map.

But how do these notices get in the papers? Where do the cards and maps come from. A visit to a weather bureau is then taken.

Upon first entering, one might think that he is in a small printing office. In fact that is just where he is. A small press run by electric motor, two cases of type, a gas furnace for melting metal, some chalk plates and a can of ink make up the equipment. The work in this shop is done by an assistant. The type for the small cards is set up and copies run off on the press.

But making the daily weather map is a much more tedious matter and requires expert knowledge. First the chalk plate is used. By the use of steel pen lines are drawn on this plate, which is covered with a thin chalk preparation.

Isobars or continuous lines, pass through points in the United States which are of equal air pressure.

Isotherms, or the dotted lines, pass through points of equal temperature. Small circles, locating the more important cities, are left blank, partly colored or wholly colored, marked with R, S or M to indicate clear weather, partly cloudy, cloudy, rain, snow or report missing of these various points.

Small arrows pointing out from these circles show the direction of the wind. Shaded parts of the map show precipitation of one-tenth of an inch or more during the last twenty-four hours.

Print Two Hundred Maps.

The chalk plate is then covered with melted metal which is pressed down into the lines and marks made by the pen. When the metal plate is cool, it is taken from the chalk plate, sawed into the right size and shape and put on the press.

These reports are taken from observations made at 8 o'clock in the morning and forecast the weather up to 7 o'clock next morning.

To find out how the observer makes these observations we must leave the print shop and go into another room in which we find several peculiar instruments. We are all accustomed to the two fundamental ones. They are the thermometer and barometer. Similar instruments have been in use many years.

The thermometer was invented in 1643 and the barometer in 1590. Modern stations are equipped with more complex instruments of the same general nature and serving the same purposes. One of them is the thermograph.

This is a small instrument with electric attachment and inclosed in a box.

Another of the modern instruments is the barograph. This gives a continuous reading while the thermograph records automatically. The barograph is an instrument which records the continuous air pressure.

Hills Affect Weather.

Observations from these are marked on the maps. In order, though, to make the complete forecast one must be acquainted with the topography of the country. Mountains, hills, valleys, and rivers affect weather conditions by changing and breaking up storms, cold waves and other air currents.

Like all other departments, the Weather Bureau has been investigated by a committee appointed by Congress.

The service was organized in 1870. It is costing the government $1,600,000 a year to run it. The question was raised as to whether or not it was paying and a committee was appointed to find out. They found it was one of the nation's best investments.

Before the service began, storms along the Pacific coast had been destroying an almost inestimable amount of property with the showed the Weather Bureau had saved seventeen million dollars in six storms and that during one season on the Atlantic coast thirty million dollars had been saved by the weather reports.

The great part of the loss of many lives. Investigation established, was on the part of the shippers who would start their shipments not knowing the unsettled conditions of the weather or that a storm would catch them before they reached their market.

Today the service warns them of the dangers and they choose good days for their shipping.

HOTCHKIN RESIGNS AS MANAGER.

Graham-Latimer Head Will Be Field Man for Tribune.

D. E. Hotchkin has resigned as manager of the Graham-Latimer store, to take effect July 17, to accept a position with the Tribune as field man. Mr. Hotchkin has been manager of the store for a year and a half, and before that time was the proprietor of the store for five years. His resignation was tendered three months ago, but was not accepted, being unable to secure a competent manager.

CIVIC CLUB MAKES CHANGE.

Name Committee for Monthly Meetings —First to Be Held July 14.

A new plan in Commercial club activities was made at a weekly meeting of the club at noon today, whereby a committee of three members are to be appointed monthly by the club president to arrange for the regular monthly meetings of the organization. They are to arrange a program and the banquet and get out the members as extensively as possible.

The first committee will be composed of Charles McNeal, W. O. Garrett and W. S. Todd, they being named today by President C. C. Hellmers. They will meet at the club rooms at 8:30 o'clock tomorrow night to arrange for the next monthly meeting, to be held Wednesday night, July 14.

And Then Stigall Quit.

St. Joseph Observer.

In Judge Allen's division Thursday, Attorney Louis Stigall, who is a first-class interrogator and can make a witness "tell it" whether the witness wants to or not, met his Waterloo when he went up against a witness of foreign extraction. After Stigall had looked his man over he began:

"Now, Lazky, what do you do?"

"Ven?" asked Lazky.

"When you work, of course," said the lawyer.

"Vy, work——"

"I know," said the lawyer, "but what at?"

"At a bench."

"Oh," groaned the lawyer. "Where do you work at a bench?"

"In a factory."

"What kind of a factory?"

"Brick."

"You make bricks?"

"No, de factoryis made uv bricks."

"Now, Lazky, listen. What do you make in that factory?"

"Eight dollars a week."

"No, no! What does the factory make?"

"I dunno; a lot uv money, I think."

Now, listen! What kinds of goods does the factory produce?"

"Oh," said Lazky, "good goods."

"I know, but what kind of good goods?"

"The best."

"The best of what?"

"The best there is."

"Of what?"

"Of dose goods."

"Your honor," sighed Stigall, "I give up."

Market Live Stock.

W. H. Ramey, C. D. Caldwell and James Milbanks, Nodaway county stock men, marketed live stock in St. Joseph yesterday.

Return to Kirksville.

Dr. and Mrs. Sumner Still of Kirksville, who have been visiting at the home of Senator and Mrs. Anderson Craig, returned to their home Saturday.

Missouri has the largest wild animal market in the United States, at the farm of W. P. Hall of Lancaster, Missouri, who has a corner on the elephant market of the world and is the largest individual horse buyer in the United States.

A marriage license was issued Saturday afternoon by Recorder Baker to Cladie Clark and Maud Hawk, both of Sheridan.

Coal Oil Good to Use.

Poultry houses and runs should be kept absolutely clean at all seasons, but at this season, when mites and disease germs multiply so rapidly, extraordinary care should be taken. Now that eggs are no longer wanted for hatching purposes, one may make freer use of kerosene, one of the cheapest and best vermin destroyers obtainable.

Use it freely around the roosts and sprinkle all corners and protected places where mites or lice may lie hidden. But be careful not to sprinkle it on your chicks, as it will badly burn them, and if enough kerosene gets on a baby chick it will go the same route as the mites.

Give Epsom Salts to Fowls.

It will be well to occasionally place a tablespoonful of Epsom salts to each half dozen mature fowls or dozen half-grown chicks, either in their mash feed or in drinking water. This will help to rid them of any intestinal worms they may be troubled with, and will also help to cleanse the system of other troubles.

Broody Hen is a Worry.

One of the poultryman's worries these days is the brody hen. It sometimes seems as if all the hens wanted to quit work and go to setting. A good way to handle the broody hens is to gather then up at night and place them in a slat bottom coop away from the other chickens. Feed lightly but provide plenty of water.

Women at the University of Missouri at Columbia are learning to swim this summer under the direction of the instructor in physical education for women.

Smallest cows in the world are found in the Samoan islands. The average weight does not exceed 150 pounds, while the bulls weigh about 200 pounds.

The greatest factor in national or state economics is transportation, and the greatest single factor in economical transportation is good roads.

The Sure-Fit Truss for Rupture.

B. M. Heflin of Fremont, Neb., the expert truss fitter, will be at the Ream hotel July 8, 8, 9 and 10 with the Sure-Fit truss for rupture, which works with the body, holding rupture constantly. This pad manipulates the ruptured part in such a manner that it strengthens the weakened muscles and in time will close up opening. No leg traps, rubber or steel bands to contend with.

Hundreds of people are wearing the truss satisfactorily. If you want a truss which will hold rupture constantly, see me at the Ream hotel, June 7, 8, 9 and 10.

URGES OILING OF ROADS.

Dean McCaustland, University of Missouri Warns Supervisors to Investigate Quality.

"Attempts are now being made," says E. J. McCaustland, dean of the school of engineering of the University of Missouri, "in several parts of the state to keep dust down by the use of road oils. Supervisors should be careful to investigate the quality of oil they use before putting it on the highways. It is not generally understood that there are two distinct types of oil on the market.

One of these oils has an asphalt base which serves as a binder on the road as soon as the lighter oil evaporates. The other has a paraffin base, and is to all intents and purposes a lubricating oil. This kind of oil, however, does not hold the road hard, or is not binding. It leaves the roads musty and sticky.

"Road oiling, properly done, gives a good surface. The city of Joplin has done some of this work on its roads that have already carried heavy traffic more than a year and now look as good as asphalt pavement.

"Any Missourian may send samples of road oils to the Engineering Experiment Station, University of Missouri, Columbia, and have them examined at a moderate cost, merely enough to pay for the use of materials in the laboratory.

"Sometime ago the Engineering Station issued a bulletin giving complete information on the quality of various materials throughout the state for road making purposes. This bulletin is still in print and will be sent free. Its title is 'Investigation of Road Making Properties of Missouri Stone and Gravel.'"

Colorado has been using convict labor in improving her highways for the last seven years. So successful has it proved in this state that others have modeled their laws and plan of operation after those of Colorado, and the governors during their annual conference at Colorado Springs last August spent much time in studying at first hand the wonderful highways that Colorado has built by convict labor.

STECHER WINS WRESTLING TITLE

Nebraska Farmer Boy Throws Cutler In Straight Falls.

NOW CHAMPION OF THE WORLD

Dodge Lad Wins With His Famous Scissors Hold, Coupled With Half Nelsons—Ten Thousand People See Contest at Omaha.

Omaha, July 6.—Joseph Stecher of Dodge, Neb., farmer boy, is the champion heavyweight wrestler of the world.

Before a crowd estimated at 10,000, which filled Rourke's park to overflowing, the unassuming young man whose meteoric career has made him a noted figure in the world of sport, won two straight falls from Charles Cutler of Chicago, who since the retirement of Frank Gotch has been defending the heavyweight championship.

Stecher won the world's championship with his famous body scissors hold, coupled with half nelsons.

The first fall came in 17 minutes and 3 1-5 seconds. The next fall, after an intermission of a quarter of an hour, came in 10 minutes and 50 seconds.

Cutler outweighed his opponent by a good twenty pounds, but within a few minutes after the beginning of the match, it was apparent that the extra weight was of little advantage to the Cricago grappler.

It was the old, old story of youth against age.

Stecher Hooks Scissors.

Soon after the start of the match they went under the ropes, with Stecher behind. He was given this position after they were placed in the center of the mat, and hooked the scissors in a very short time.

Then began the punishment that was the downfall of Cutler. After the Dodge county wonder had squeezed Cutler with his scissors for about four minutes the terrible pressure began to tell and Cutler was seen to look at Frank Gotch and shake his head. The pain he was forced to endure was plainly evident.

Cutler made a heroic effort to get away and again they went under the ropes. After they returned to the center Cutler edged away and Stecher seemed in danger for a moment, but he soon twisted behind and again hooked his scissor. For almost ten minutes Cutler was forced to endure the terrific pressure of those gigantic legs of the Dodge county farmer, with Joe all the while trying to twist the giant over with a half nelson. After 17:03 minutes of wrestling he succeeded in putting both Cutler's shoulders to the mat and Referee Ed Smith patted him on the back.

Rooters Cheer Stecher.

Pandemonium broke loose from the thousands of Stecher rooters, until it was noticed that Cutler failed to rise. He lay on his stomach in the middle of the padded ring for several minutes, until he was assisted to his corner, but when the agreed fifteen minutes was up he walked to the center.

After nine minutes Cutler hooked a half nelson and a bar hold on Stecher and it looked like the Dodge boy was going to the mat. But here was where Stecher showed the stuff of which he is made by twisting away by main strength.

Cutler got behind immediately, but Stecher raised himself to his feet and threw Cutler over his head and immediately got behind, hooked his scissors, when the Dodge boys started for home, for they knew the match was over, and it was, for Cutler did not offer much resistance this time after those fearful legs were wrapped around him. The fall took 10 minutes and 59 seconds.

DESTROYERS ESCORT THOMAS

Liner Carrying British Purchasing Agent Convoyed Down Channel.

New York, July 6.—The American line steamer St. Louis arrived here from Liverpool. It was escorted down the St. George channel by two torpedo boat destroyers to a distance west of Daunt's rock, probably owing to the presence on board of Mr. D. A. Thomas, the British capitalist and coal operator. Thomas comes here to supervise and expedite the production of munitions for the allies.

The two destroyers remained with the St. Louis two days and nights, it was said, and did not leave it till the war zone was cleared.

Troops of Villa Occupy Saltillo.

Laredo, Tex., July 6.—Important Villa troop movements near Monterey are reported by passengers from that city. They announced that Villa forces have occupied Saltillo, which is about thirty miles southwest of Monterey, and that there are [illegible] troop movements as if in preparation for a battle, near Parecon, about thirty miles northwest of Monterey. The truce between Villa and Carranza troops around Villa Garcia lasted one day, to give time for burial of dead.

Pullen Winner of Tacoma Auto Run.

Tacoma, Wash., July 6.—Eddie Pullen won the 200-mile Golden Potlatch automobile race on the Tacoma speedway, his time being 2 hours 21 minutes and 14 2-5 seconds. Earl Cooper was second and Barney Oldfield third.

SOCIETY and CLUBLAND

By KATE SCHENCK

PHONES—OFFICE 42 HOME 683

Dinner Party.

Dr. and Mrs. C. A. Bone were the hosts of a dinner party given Saturday night complimentary to Mr. and Mrs. Roy W. Pettit.

Miss Fordyce Entertains.

Miss Mary Fordyce was the hostess of a dinner party given at noon Sunday, when she entertained Miss Mamie Morris, Miss Ola King, Miss Ora King, Edgar Hull, Earl Simmons, Harry Hartness and Perry Onstott.

Mr. and Mrs. Wallace Entertain.

Mr. and Mrs. John Wallace gave a supper party last night at their home, on East Second street, entertaining Mr. and Mrs. M. L. Powell of Pickering and Mr. and Mrs. Will Edwards and daughter, Augusta.

For Visiting Friends.

Mrs. William Rifenrauth and children and Miss Gertrude Quast of Crofton, Neb., who are visiting friends in the city, were the guests at a Sunday night tea given by Mrs. Josephine Yehle, and daughters, Misses Katherine and Theresa Yehle.

Stafford Dinner Party.

Mr. and Mrs. George Stafford gave a dinner party Sunday noon at their home, 816 South Market street, entertaining Mrs. M. E. Farrar, Mrs. W. B. Carter and son, Harlan, of Lawrence, Kan.; Miss May Farrar of Brookfield and Miss Eva Farrar.

For Des Moines Guests.

Mr. and Mrs. Frederick Harley French were the hosts of a dinner given at noon Sunday at their home, on West Fourth street, complimentary to Mr. and Mrs. B. C. Huffine of Des Moines, Ia., who are visiting Mrs. Huffine's mother, Mrs. M. A. Martin. Plates were laid for Mr. and Mrs. Huffine, Mrs. Lizette Lippman, Miss May French, Pierce Lippman of St. Louis and the hosts.

Price Family Celebrates.

The members of the Price family spent the Fourth by enjoying a day's recreation and picnic dinner yesterday at Horseshoe lake. Those in the party were Mr. and Mrs. J. P. Price and daughter, Maida; Mr. and Mrs. R. S. Braniger, Mr. and Mrs. J. M. Smith, William Price and daughters, Mrs. Ellis Garrett and Mrs. Olive Garrett, Mr. and Mrs. W. B. Price and daughter, Anna Marie; Mr. and Mrs. Ralph Price, Clun, John, Jr., and Harry Price, Dr. Earl Braniger, Joe and Byron Price.

In Honor of Miss Myers.

Mr. and Mrs. John Holtman of Conception Junction entertained a party of friends on the Fourth complimentary to Miss Rosa Myers of this city, who is visiting at their home. The guests were Miss Myers, Miss Martha Villing, Miss Hilda O'Reilly, Miss Nora Ellerman, Misses Loretta and Ora McManus, Miss Helen Elizabeth Keutter, Charles Villing Matthew and Fred O'Reilly, Ben and George Jermain, Cornelius and Harold McManus.

For Miss Lyle.

Mr. and Mrs. Robert Lyle entertained the various members of the family with a dinner Sunday noon at their country home, southeast of the city, arranging the gathering in honor of their daughter, Miss Floy Lyle, who has recently returned from a year's work in the government schools of Porto Rico. Plates were laid for Miss Lyle, Mrs. Myron Mitchell Blackman and daughter, Margaret, of Kansas City; Mr. and Mrs. Harry Lyle and son, Harry, Jr.; Mr. and Mrs. Lester Lyle, Miss Clara Roelofson and the hosts and family.

Baptist Society Meets.

The meeting place of the Women's Missionary society of the First Baptist church, which was to have been held Friday afternoon at the country home of Mrs. Eugene Ogden, was changed on account of the rainy weather to the home of Mrs. William Everhart, on South Main street. The regular program was carried out. The August meeting will be the annual business session.

Entertains Club.

Mrs. Sallie Hughes, president of the I. I. club, entertained the club members with a very pleasant afternoon at her home, northwest of the city, Thursday afternoon. During the entertaining hours the hostess was assisted by Mrs. Anna Osborn in entertaining her guests, who were Mrs. Frona Shell, Mrs. Carrie Halasey, Mrs. Mamie Taylor, Mrs. Anna Osborn, Mrs. Sallie Shell, Mrs. Belle Hall, Miss Vivian Marie Taylor, Miss Lyda Onstott, club members, and Mrs. Florence Chrisen of El Reno, Okla., and Mrs. Lucretia Onstott, who were visitors.

Trullinger Dinner Party.

Mr. and Mrs. Henry Trullinger entertained a number of relatives with a dinner party Sunday at their home on West Twelfth street. The diners were seated at two long tables and the party included Mr. and Mrs. A. S. Robey and family, Mr. and Mrs. Marion Lugar and son, Mr. and Mrs. Otho Robey and two children, Mrs. Anna Daniels and sons, Ernest and Harold, and daughter, Leta; Mr. and Mrs. W. L. Robey and family, Kenneth Daniels of Kansas City, Mrs. Verna Murphy, Miss Virginia Lawson and Mr. and Mrs. Trullinger and sons, Glen and Harry.

Picnic at Thornhill Farm.

A picnic and joint reunion of the Thornhill and Wallace families was held Sunday at the country home of Mr. and Mrs. William Thornhill, three miles east of the city. At noon a sumptuous picnic dinner was spread under the shade trees and the afternoon spent with outdoor games, including a base ball game, sack race and other athletic events. The party, which included fifty persons, was composed of Judge and Mrs. John Thornhill and their guest, Mrs. Josie Cadwell, and daughter, Kitty Jane, of Caney, Kan.; Mr. and Mrs. John Wallace, Mrs. Calista Dawson and daughter, Miss Eva Dawson, and their guest, Mrs. Cora Fowler of Edina, Mo.; Mr. and Mrs. W. G. A. Edwards and daughter, Augusta; Mr. and Mrs. Omar Wallace and son, John Curtis; Mr. and Mrs. George Wallace and daughters, Doris and Mildred; Mr. and Mrs. Bert Hilsabeck and children, Edna and Wallace; Verne Wallace and Frank Wallace of this city, Mr. and Mrs. Stanton Garten and children, Helen, Raymond and Bertha Clair, Mrs. Hester Green of Pickering, Mrs. M. L. Powell of Hopkins, Mr. and Mrs. Walter Dickie and two nieces, Etta and Georgia Ellen Trusty of Burlington Junction, Mrs. Nelle Newlon and two sons, Mr. and Mrs. Lon Lyle and son, Lon William; Mr. and Mrs. C. F. Ashford and daughter, Thelma; John Ashford and Mr. and Mrs. William Thornhill and sons, John Merril and Leon Curtis.

Missouri has more sheep than any of her border states. With the exception of one other state no other state has so many sheep worth so much money per head.

The world's greatest harness horse, Nala, was foaled in Missouri.

MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

USE MORE PAINT IN CAMPAIGN.

Output of Mineral Ingredients Increased in 1914 Through "Clean Up" Move.

Statistics compiled by J. M. Hill and just made public by the United States geographical survey show a greater production of mineral paints during 1914 than in 1913. This increase is particularly marked in the white pigments made from both lead and zinc, and is of interest as showing the results of the "clean up, paint up" campaigns which have been in progress.

In 1914 there were 66,566 short tons of domestic ocher, umber, sienna, mineral paint, mortar color, and ground slate and shale sold, which was less by 4,029 tons than the sales of similar pigments in 1913. The output of white pigments—zinc oxide, leaded zinc, and the basic sulphate of lead produced by sublimation showed an increase of 10 per cent in value over 1913. During 1914 there were sold 106,791 short tons of these pigments, for $9,978,710.

The lead pigments made chemically, litharge red lead, and orange mineral, and the chemically prepared zinc barytes pigment lithopone likewise showed a decided increase; 245,206 short tons of these pigments were sold in 1914, for $27,621,829.

Missouri has the hen's biggest nest, the poultry products exceed annually in value the combined annual output of gold and silver of California, Colorado and Arizona, and is annually greater than one-half the annual production of gold in the United States.

Guests at Manley Home.

Mr. and Mrs. B. O. Hazelrigg of Harold, S. D., arrived in Maryville yesterday for a month's visit with Mrs. E. T. Manley and family.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

STOCK MARKET IS STRONG

Cattle and Sheep Sold Higher While Hogs Hold Own in Kansas City Yards.

Kansas City, July 5.—Cattle sold as well as could be desired today. Trade active and prices steady to strong, some sales 10c higher. The good market today follows a rise of 15 to 35 cents last week, and notwithstanding a weak to lower report from Chicago. Features today were the sale of prime steers finished on grass.

One instance was by way of the Missouri method, strong wintered steers, fed out on the grass, this sale being made by J. E. Bohart, Plattsburg, two loads steers, 1,381 pounds average, at $9.65, a new high top on heavy steers here for this year.

The other feature sale was steers finished by the Kansas plan, strong wintered and turned on the grass in this case April 26th, without other feed, E. H. Lehman, Rosalia, the seller, one car load 1,342 pounds average, at $9.35. Bulk of the natives sell at $8.50 to $9.25. There is a demand for fleshy steers from Illinois feeders, some of these today at $8.40. Stock steers are firm, but quality is generally lacking, most sales at $7.00 to $7.65, stock calves at a wide range, $6 to $8.50.

In the quarantine division 60 car loads arrived, including and good weight north Texas steers at $8.05 to $8.90, prices fully steady, some wintered Oklahoma steers at $7.40 and $7.50, and some grass steers from both Texas and Oklahoma at $6.40 to $7.40.

Immense amounts of all kinds of meat, including fresh beef, are being sent abroad, and exports of live cattle will soon be an important item, conditions that make market prospects promising.

The hog market developed strength after a 5c lower opening, closing sales steady with Friday, top, $7.70, bulk of sales $7.50 to $7.65. Quality is very good, and average weight for June was 197 pounds, points that indicate conservative marketing in the country, and most dealers look for some advance in prices this month.

Order buyers are fairly strong buyers, and packers appear to have a place for a good many hogs here, as they are bringing in several trains a week, bought at up-river markets.

Sheep and lambs sold 10 to 15c higher today, receipts 4,400. Nine loads of Arizona spring lambs were included today, selling at $9.65 to $9.90, native springers $9.75.

Native ewes are worth $ to $5.50.

Some feeding stock is available, range feeding lambs selling at $6.25 to $7.25, and breeding ewes $5 to $6, choice young breeding ewes up to $6.65. Feeding lambs at present prices will prove to be cheap a little later on.

What do you want to sell? List it in Hosmer's sale next Saturday. 6-8

REAL ESTATE TRANSFERS.

List of instruments filed in the recorder's office of Nodaway county, Missouri, for one week, beginning June 28, 1915:

Eldon E. Lloyd to Stella D. Lloyd, June 26, 1915, half interest in lot 2, block 20, Saunders' addition to Maryville, $1.

Frederick P. Robinson to Mildred Robinson, June 25, 1915, lot 16, block 1, West Terrace place addition to Maryville, $1.

Frederick P. Robinson to Mary M. Robinson, June 25, 1915, half interest in lots 1, 2, 9 and 10, block 2, Robinson Place addition to Maryville, $1.

Jennie I. Bell to Charles T. Bell, June 25, 1915, lot 1, block 1, West Terrace place addition to Maryville, $1.

Rebecca J. Robinson to Frederick P. Robinson, June 25, 1915, lots 3, 4, 5, 6, 7 and 8, block 2, Robinson place addition to Maryville, $1.

Minnie C. Gates to John M. Gates, June 24, 1915, N ½ SW 20-64-36, $1.

Edward Otis to Mary Buhler, Oct. 8, 1915, lot 2, block 1, Stevenson's addition to Maryville, $3,000.

Shoo-Fly, the animal's friend. Sold by Koch Pharmacy.

Card of Thanks.

To all the kind neighbors and friends who assisted and helped in the last sickness, death and burial of our sister, Emily Monroe, we wish in this inexpressible hour of sorrow and grief to return our heartfelt thanks. We feel that we owe a debt that can never be paid.—Mrs. Catherine McKibban, Angus Monroe.

New Jersey in 1891 was the pioneer state in providing state aid for public highways. Since then other states have adopted the policy in quick succession. Only seven states, Florida, Georgia, Indiana, Mississippi, South Carolina, Tennessee and Texas, have no form of state highway department whatever, although Georgia grants aid to the counties for road improvement by lending the services of the entire male state convict force.

The waltz is a national German dance, and was introduced into England by a German baron 100 years ago.

STIMULANTS KEEP DEATH FROM QUIGLEY

Physicians Hold No Hope of Recovery of Archbishop.

Rochester, N. Y., July 6.—The condition of Archbishop James Edward Quigley of Chicago, who lies at the point of death in this city at the home of his brother, Chief of Police Joseph M. Quigley, showed little change. The attending physicians held out no hope of recovery, but expected to be able to keep the patient alive for some time by use of stimulants. His mind remains clear.

ADMIRAL ADVISES CAUTION

Von Truppel Urges Concessions to United States.

Berlin, July 6.—Admiral Oscar von Truppel, late governor of Kiauchau, the German concession in the Chinese province of Shantung, captured in November by the Japanese, contributes an article to Der Tag, warning his compatriots not to underestimate the danger of a breach with the United States and asking them to weigh seriously the question whether the value of Germany's submarine warfare against British commerce is great enough to justify a continuance of its present form at the expense of a rupture with the transatlantic nation.

The article is remarkable not only for its open statement regarding the wide-reaching effects which the participation of America in the hostilities might exercise on the future course of the war—effects which Admiral Truppel says are greatly underestimated in Germany—but also as a contribution from a naval officer.

Norwegian Bark Sunk by Submarine.

London, July 6.—The Norwegian bark Fiery Cross has been sunk by a German submarine seventy miles southwest of the Scilly islands. Its crew of eighteen men, after twenty hours in open boats, landed at Swansea. Among the crew are six Americans.

DETECTIVES TRACE HOLT'S MOVEMENTS

Washington, July 6.—The police located the house where Frank Holt stopped in Washington when he came to plant the bomb which wrecked a room in the capitol. It is a rooming house between the capitol and the Union station, and in searching the room detectives found an empty bottle which had contained sulphuric acid.

The house was located by a drawing which Holt himself gave Superintendent Pullman of the Washington police at the jail. Holt described the surroundings and drew a plan. Detectives went to the roof of a building in the neighborhood checked up Holt's drawing with the landscape and picked out the house. All that the attendants there remembered about Holt was that he stayed there a few hours and asked for a bath.

Police Chief Pullman revealed a hitherto unmentioned incident in Holt's statement to the police. Holt planned to throw his suit case, containing dynamite into J. P. Morgan's automobile in case he passed it on the way to the Morgan home.

"He told his chauffeur," said Chief Pullman, "that he was a friend of Mr. Morgan's and that he was expected."

"If we meet him on the road just signal him to stop and throw in my suit case' he told the man."

The suit case contained enough dynamite to blow the motor car into bits.

Next Saturday is Hosmer's stock sale. What do you want to sell? 6-8

POCKET CONTENTS TELL SECRET.

Story of One's Life May Be Revealed By Search Through Clothes.

The average modern man has at least 14 pockets in his clothes. In these pockets thru the things that are in them, you can tell the story of what the man has been doing in the past, what he is doing today, and what he hopes to do in the future.

In these pockets he carries his watch, pocketbook, papers and many old letters and clippings from newspapers.

Supposing that you were found dead in some out-of-the-way place and while there was nothing on your person to indicate your name or residence, the things you had in your pockets would give a very good idea of the nature of work you had been doing.

If you happened to be an attorney, doubtless you would have briefs, suggestions, letters relating to your business. Probably a digest of important laws, and many other things that would lead the police, as they turned the story over to the papers, to say: "A man, evidently an attorney, was found dead on the streets last night."

If you happened to be a physician, there would be many little things, thermometer, hypodermic syringes, pellets and pills, together with a glossary of medical terms that would reveal much relative to your personality and work in life.

Suppose, for any reason, you should come under the surveillance of the police and be arrested and "held as a suspicious person." The things found in your pocket would tell largely what kind of a man you were.

It would not be expected that if you were an upright and honorable citizen you would have vulgar and obscene pictures in your pockets. Neither would you have poetry, so-called, that told of vicious and wicked acts committed by licentious men.

If you were all you claimed to be your pockets would bear strong evidence to the truth of your statements. You would hardly expect to find a Bible in the pockets of a shell game man or a pamphlet on "How to Play Poker" in the pockets of a minister of the gospel.

It is to be expected that boys passing thru the green and callow age will have in their pockets things from which either the worst or the best might be inferred, but the things a man has in his pockets will tell largely what kind of a man he is.

What are in your pockets today?—Our Country.

Returns to Des Moines.

B. C. Huffine of Des Moines, Ia., left yesterday for his home after a short visit in Maryville. Mrs. Huffine, who accompanied him, will remain for a longer visit with her mother, Mrs. M. A. Martin.

Missouri grew 225,000,000 more bushels of corn on the same acreage during the years 1912, 1913, and 1914 than did Kansas. Half the total number of counties in Missouri grow more corn than is grown in half the total number of states in the Union. One farmer in Missouri has grown more corn than was grown at that time in nine different states in the Union.

RICKENBACHER WINS 300-MILE AUTO RACE

Orr Thrills Crowd at Omaha by Breaking World's Record.

Omaha, July 6.—Eddie Rickenbacher, driving a Maxwell, won the first annual 300-mile gasoline classic at the new Omaha speedway. His time was 3:17:39.20, an average of 91.74 miles an hour.

Eddie O'Donnell, captain of the Deusenberg team, was second, clipping the distance at an average of 86.16 miles an hour. Tom Orr, Rickenbacher's Maxwell teammate, was third traveling at an average of 82.30 miles an hour, and Lou Donaldson piloted his Emden into fourth money. W. W. Brown, in a Du Chesnau, was flagged off the track after he had done 120 laps. Thirty thousand people saw the race.

Never once did Rickenbacher lose the lead. Billy Chandler of the Deusenberg team was in hot pursuit for a few miles, but Billy's car went to the bad and he was forced to succumb. When Chandler left the race, Eddie O'Donnell took up the chase, but Eddie couldn't drive the turns quite as fast as Rick, and even though he passed him occasionally on the stretch, Rickenbacher came in fifteen laps ahead at the finish.

Tom Alley and Billy Chandler of the Deusenberg team, and Joe Cooper of the Sebring were all forced out of the race by mechanical difficulties. Their cars couldn't stand the double grind of two days' racing in three days. All three were driving good races when they quit.

Tom Orr, driving a Maxwell car, furnished a thrill to the crowds by breaking a world's record. Orr broke the record for five miles by turning the distance in three minutes flat.

Use Shoo-Fly, the cow gives 25 to 35 per cent more milk. Sold by Koch Pharmacy.

Do Not Take Wrong Mail.

The postal authorities at Washington, recognizing the liability of postmasters to make mistakes in getting letters in the wrong boxes, have fixed a penalty of $200 on persons taking mail out of an office other than their own, and not returning it immediately. This law also includes the newspapers. The excuse that it is the postmaster's fault cuts no ice. If you have been getting other people's mail you had better take warning or you may get yourself into trouble.—Exchange.

Do you want to sell it? List it in Hosmer's stock sale next Saturday, July 10. 6-8

U. S. TRADE STILL GROWS

Despite War, Balance Is Greatest in History—Food Supplies Is Big Demand.

A $1,000,000,000 trade balance—the greatest in American history—in a year which has seen commerce depressed by eleven months of world war, is the commercial record of the United States. Official announcement is made at the department of commerce that at the closing of the fiscal year, June 30, it was certain that the $1,000,000,000 mark had been passed.

"The figures for eleven months, ending May 31," it was announced, "show a favorable balance of $983,117,479. As thirteen ports, which ordinarily handle 90 per cent of the country's foreign trade, show for June an export balance of approximately $60,000,000, it is now known that the excess of exports over imports has at this date exceeded $1,000,000,000, surpassing by nearly $400,000,000 the highest record heretofore made."

Figures indicating that the new high record would be made have been placed before President Wilson and the cabinet from time to time by Secretary Redfield. Only the official announcement was lacking. Generally, the showing was considered all the more gratifying because it was made despite the paralysis of ocean shipping and the stagnation in the cotton market which depressed America's second most valuable crop.

Department of commere experts point out that the immense trade balance is not owing to orders for munitions of war. In fact manufacturers generally other than of foodstuffs have been less than in the similar period before the war.

"The normal sales of manufacturers during peace," said an official statement on that point, "were greater than those under existing war conditions. Because of this fact and the extraordinary shrinkage of exports of crude materials it is found that the net increase in our total exports has been wholly in foodstuffs."

The movement of gold between the United States and the outside world, which at the beginning of the war was a subject of great concern, has been reversed in overwhelming ratio and represents payments for American exports.

"The inward flow of gold," says the department's announcement, "which became pronounced about the commencement of the current year, continued in May at an accelerated rate, imports amounting to $21,136,311, against $1,972, 411 in May, 1914. Gold exports totaled $1,277,554, compared with $16,835,202 in May, 1914. In the eleven months ending May 31, gold imports totaled $119,227,915, an increase of $56,505,468, while gold exports aggregated $143,402,160, an increase of $79,470,695 over a like period a year ago."

The nearest approach to the $1,000,000,000 record was in 1908 when a favorable balance of $666,000,000 was shown for the United States. In 1901 there was a balance of $664,000,000 and in 1913 of $652,000,000, while in 1914 the balance dropped to $470,000,000. The last time it showed against the United States was in 1893.

Visited in Kansas.

Harvey L. Haines spent Sunday and Monday at Sabetha, Kan., visiting his parents, Mr. and Mrs. H. C. Haines.

There is no shortage in the general motor car market.

But there IS a shortage of Dodge Brothers motor cars.

It is NOT due to a small production, because the production has been large.

Twenty thousand of these cars have been distributed since January 1st.

This means a production in six months as large as is usually attained in as many years.

And yet there is a waiting list of those who want to be OWNERS in your city.

And there is a similar waiting list in almost every city and almost every town.

You will bear witness that we have made no extravagant claims for the car.

We have merely insisted on its goodness.

And still the car continues to be singled out as one worth waiting for.

OBSERVE 'FOURTH' SANELY IN CITY

MARYVILLE RESIDENTS PICNIC, REST, VISIT AND FROLIC.

NO CELEBRATORS ARE INJURED OVER COUNTY

Reports Indicate Everyone Paid Homage to Independence Wisely All Three Days—Ball Games Draw.

The most sane Fourth in the history of Maryville perhaps was observed Sunday and yesterday by residents and visitors by visiting, picnicking, fishing and witnessing ball games. A meager attempt was made, as usual, by the small boy to observe the day in the good old way with noise and hurrah, but the effort was amusing.

With the strict ordinance on sale and discharge of fireworks placed by the city, and little encouragement in such endangering practices from the parents, the youth soon gave up the effort to imitate the European war.

There was little trouble by the police or county officers either in keeping order over the county, as everybody seemed to be observing the birth of independence in a strictly sane and safe way. In fact, the two days passed off more like Sundays in Maryville than as a day for a big hurrah.

Some Went Out of City.

Many went to Clearmont and Burlington Junction Saturday to witness the celebrations there, while quite a number left the city for the two days' holiday, either to visit home folks or relatives and friends or to while away the time fishing and enjoying outdoor life.

The two base ball games played by the Federals and the St. Joseph Rapids at Federal park Sunday afternoon and yesterday afternoon also drew large crowds, somewhat larger than heretofore. The Federals won the Sunday game 1-0 in a ninth inning rally, but lost the game yesterday 3 to 4.

Frank Ham pitched for the Federals in the game Sunday, while Bert Hubble of Barnard pitched yesterday for the local nine.

One of the enjoyable Fourth of July picnics of the community planned at the Normal grove Sunday by the Knights of Columbus and their friends was postponed until next Sunday

Church Holds Picnic.

The Wage Earners and Homemakers classes of the Buchanan Street Methodist church held a picnic and dinner at the Normal yesterday afternoon, with features of a basket dinner, games and speaking.

Ravenwood also held a quiet but interesting celebration at the Ravenwood park yesterday afternoon, with a basket dinner constituting the chief attraction.

The Fourth Regiment band was in much demand for Fourth of July celebrations. The musicians went to Burlington Junction Saturday to assist in the exercises, while they went to Lenox, Ia., yesterday.

No serious accidents to children or grown-ups were reported to have occurred over Nodaway county yesterday as a result of celebrations.

Business at Standstill Yesterday.

Yesterday was virtually a holiday for all in Maryville, though a few merchants and business establishments remained at the fore to receive patrons a few hours in the morning. The banks were closed all day. No newspapers were issued. The postoffice was closed virtually all day, there being no rural and only one city mail delivery made yesterday.

City and county officials also took a day off yesterday in most cases.

Is Fined on Two Counts.

Edwin Huff was fined $1 and costs for drunkenness and $5 and costs for disturbing the peace when he pleaded guilty to both charges in police court yesterday. The costs in each case amounted to $6.10.

JACKSON FOR BETTER ROAD

Township Delegation Petition for Change of Bridge and Highway West of Ravenwood.

A delegation of about twenty farmers and business men of Jackson township petitioned the county court in person this morning for more bridge improvements in that township this year. One of the pleas was for improving the public road west of Ravenwood and the Platte river.

It was planned by the petitioners to move the present steel bridge now across the Platte about ten rods further north and to also change the highway across the west bottom, so as to bring it entirely on ground that does not overflow. This would place the road entirely on the section line.

The county court, however, refused to consider the moving of the bridge until the highway leading to it was newly established as planned. This would save the county the moving cost until next year. It is estimated by W. M. Blackford, presiding judge of the county court, that the transfer would cost about $650.

Plan Other Improvements.

The county court has, however, decided on several culvert improvements in Jackson township, while several other improvements may be provided from this year's funds. Several repairs of bridges and culverts which span Honey creek are especially urged by the petitioners here today.

The court previously decided to build a 16-foot steel bridge along Key Farnan's farm, along the Jackson-Jefferson townships line; to install a 4 by 4 foot culvert three miles southwest of Ravenwood and also a similar one one-half mile north of the Sweet Home school.

WANT TO EXTEND LINE.

Mound City Firm Would Run Electric Wires to Graham and Skidmore.

Request that it be allowed to install electric current transmission lines from Maitland to Graham and Skidmore, was made to the county court today by E. M. Miller, president of the Mound City Electric Light and Ice company.

That firm proposes to extend its electric lighting service to those two Nodaway county towns this month.

LOCAL BOYS WIN BALL GAME.

Maryville Giants Defeat Burlington Junction 9-7—Lose One 1 in 8.

The Maryville Giants, a base ball team composed of boys less than 15 years old, defeated a boys' team of Burlington Junction at Burlington Junction Saturday afternoon by the score of 9 to 7. This makes eight games played this season by the Giants, of which seven have been victories.

The boys have now issued a challenge for any boys' team, wherein the boys are 14 years old or less.

Julius Manns pitched and Bryan Sells caught in the game Saturday.

WEATHER CONDITIONS GOOD.

Independence Day Ushered in by Fair Skies, Though Chill Atmosphere.

Despite the fact that Saturday bade fair to be inclement and chilly, Independence day Sunday was ushered in by fair skies. The air really was slightly "fresh" all day, though, and wraps and heavy weight clothes were more welcomed by the celebrators than the summer flimsies.

Yesterday, the real day of celebration, was an even better one in which to celebrate, for the skies were not only clear but the chill of the atmosphere also had been removed to a great extent.

CONTINUE ASSAULT CASE.

Trial of Frank Coffin on Charges by Wife is Deferred.

The trial of Frank Coffin, charged with common assault, July 2, on his wife, who is seeking a divorce from him, was continued from Saturday until July 17, before Justice W. L. Johnson. Coffin is out on $200 bond.

Mrs. C. E. Gregory left Saturday for Clearmont to spend several days visiting relatives.

MARYVILLE WON FIRST 1-0; LOSE SECOND 3-4.

PLAY STANBERRY NEXT

Invincible Red Sox Come for Game Sunday—Big Crowd Witnesses Clean Holiday Playing.

The Maryville Federals put up some of the classiest base ball playing of the season here before packed stands at Federal park Sunday afternoon and yesterday afternoon against the St. Joseph Rapids. It is true they lost the game yesterday, after winning the initial one 1 to 0, but even yesterday the playing was exceptionally good, and it was only in the eighth inning that the Rapids went ahead, by one score, of the localites.

Each local base ball specialist was on his toes from the start to the finish. A hearty encore each received and none failed to respond. In the close game Sunday, it was goose eggs to goose eggs until the last of the ninth, when Harry Tilson got on first through a wild throw by the third baseman, took second and stretched himself to third on a sacrifice hit by Carmichael, and finished the course on a single by Scott.

Play Stanberry Next.

In the game yesterday the two teams played close together until the eighth inning, when the visitors got a lead of one run, which the home guard could not overtake. Brittain made a rather nifty little play yesterday when he threw a runner out at the home plate while Woodard got himself a crown in the left field with worth-while outfielding.

The lineup yesterday was: Morris, ss; Tilson, 1b; Carmichael, c; Scott, 3b; Ham, p; Bailey, 4; Brittain, 8; Woodard, 7; Hubble, 1. Hubble did good work in the bog by striking out thirteen men, while Ham did equally as good in the saucer Sunday.

The Maryville Federals will play the fast and almost invincible Stanberry Red Sox at Federal park here next Sunday afternoon. This gives promise of being the hardest fought one so far this season, Manager Cleve Funk says.

The score in Sunday's game:

Federals.	AB.	R.	H.	O.	A.	E.
Morris, lf	4	0	1	2	0	0
Tilson, 1b	0	1	0	6	0	1
Carmichael, c	4	0	1	13	1	1
Scott, 3b	4	0	1	3	2	1
Bailey, 2b	3	0	0	1	3	2
Woodard, rf	2	0	0	0	0	0
Ernst, cf	2	0	0	5	0	0
Wiles, cf	1	0	0	0	0	0
Conley, ss	3	0	0	0	1	0

Totals	32	0	5*	25	14	2

*One out when winning run was scored.

Summary—Two-base hits, Gibson; left on bases, St. Joseph 10, Maryville 3; bases on balls, by Palmer 1, by Ham 3; batsmen hit, by Ham 1. Struck out, by Palmer 6, by Ham 11; umpire, Keck.

The score yesterday:

	R.	H.	E.
Rapids	0 0 1 0 0 2 0 1 0	4	8 5
Maryville	0 0 1 0 2 0 0 0 0	3	4 3

Summary—Runs, Peery, Borsch, Bliley, Garvey, Britton 2, Woodard; two-base hits, Scott, Hubbell; struck out, by Hubbell 12, by Gibson 3.

ACTED IMPROPERLY; EACH FINED

Pearl Ham and Pearl Roach Assessed $25 Each in Police Court.

Pearl Ham, a woman, and Pearl Roach, a man, were each fined $25 and costs of $6.10 in police court yesterday morning when they pleaded guilty to a charge of improper conduct.

Spend Summer at Home.

Miss Frances Hartman, who has been attending the University of Missouri the past term, and who formerly was principal of the high school at Hot Springs, S. D., is spending the summer vacation with her father, George A. Hartman.

Lester Thompson of Maitland spent the week end visiting friends in Maryville.

BURLINGTON WON AND LOST

Junction Team Shut Out by Hopkins 0 to 8, But Defeated Shenandoah 4 to 1.

The Burlington Junction base ball team won from Shenandoah, Ia., at Burlington Junction Sunday 4 to 1, but were shut out 0 to 8 by Hopkins at the Junction diamond Saturday. Hopkins played rings around the home team all through the game, giving the Junctionites only a few chances at scoring.

The score, Burlington against Shenandoah:

Shenandoah .....0 0 1 0 0 0 0 0 0—1
Burlington Junction..0 0 0 0 3 0 1 0 *—4

Batteries—McKee and Stinger; Hollis, Vaughn and Hagey. Umpire—Fred Greenelsh. Time—1:20.

NABBED; WEDS COMPLAINANT

Kenneth Daniels, Charged With Seduction by State, Marries Girl Before Trial.

A marriage of the prosecuting witness a few minutes before his trial was scheduled to begin automatically caused a state charge of seduction under promise of marriage, placed against Kenneth Daniels, to be dismissed before Justice W. L. Johnson this morning.

Daniels, who is 20, was arrested at Rosedale, Kansas City, Kan., last Friday by the constable there on advice of Constable Robert Jones here. Jones went to Kansas City Saturday and returned that night with Daniels.

On arraignment Daniels pleaded not guilty and his preliminary trial set for 10 o'clock this morning before Justice Johnson. He was released on $500 bond pending the trial.

Shortly before time for the trial, Daniels appeared in Justice Johnson's court with Miss Ethel A. McClain, 16 years old, prosecuting witness, waving a marriage license.

So the pending trial was changed into a marriage and the defendant and prosecuting witness united at the time the trial was supposed to be in progress. Daniels said he had intended to come to Maryville soon to marry Miss McClain. He has been employed with his brother in painting and paper hanging in Kansas City since leaving here last year.

The bride is the daughter of John McClain, South Saunders street.

TO SPAN NODAWAY, $2,476

County Court Awards Contract to Replace Bridge Washed Out—Six Weeks to Finish.

The Illinois Steel Bridge Building company was awarded the contract by the county court this afternoon to build a steel bridge over the new channel of the Nodaway river west of Burlington Junction, for $2,476. It is to be finished within six weeks, according to contract, and will replace the wood structure recently washed away by floods.

There were four other bids submitted. They were: Decatur Bridge company of Decatur, Ill., $2,535; A. L. Seibert, Rochester, Mo., $2,750; Kansas City Bridge company, $2,673; Standard Bridge company, $2,524. Seibert constructed the new tri-county bridge on the Nodaway, near Graham.

Each of the bids submitted were for an 108-foot span with 18-foot approaches on each end and with a 14-foot roadway. It also called for 3-foot steel casing piers with concrete filler at each end, to be 28 feet in length.

The court also considered a proposition to build a 112-foot bridge

The bridge will be almost an exact duplicate of the one recently constructed over the Nodaway between Elmo and Clearmont, which cost $2,646, or $170 more than the one decided upon today.

A loan of $2,600 with which to pay for the new bridge was guaranteed recently by the business men of Burlington Junction. It is to be returned without interest by the county with one and one-half years.

Gospelers to Harmony.

A gospel team of the First Baptist church conducted services at the Harmony church Sunday morning. The members of the team were Senator Anderson Craig, C. L. Gann, Ed Brewer, David Ferries and Prof. P. O. Landon.

Visited at Sheridan.

Prof. and Mrs. W. L. Butts spent the Fourth at Sheridan, visiting at the home of C. J. Hopper, president of the Bank of Sheridan, and his family, Prof. and Mrs. Butts formerly taught in the Sheridan schools.

Visiting at Council Bluffs.

Mrs. J. J. Glenn went to Council Bluffs, Ia., Saturday night to visit several weeks with relatives.

BUTTER NUT IS COMING.

RUSS MAKES STAND

SLAVS FIGHTING DESPERATELY TO STOP TEUTONIC ADVANCE.

ALLIES LOST IN WEST

Germans Win Over French in Forest of Le Pretre, Berlin Claims—Dardanelles Attack Resumed.

London, July 6.—Much activity was apparent in all the three elements where the warring powers come into actual contact, but reports as to results generally were contradictory.

Berlin uses a "reliable source" for the denial that a German battleship of the predreadnaught type was sunk by a Russian submarine at the month of Danzig bay, but the official report from Petrograd on the occurrence is accepted as correct by London, where resumption of the naval operations in the Baltic has been watched with intense interest.

Reading between the lines of the various official reports it is not difficult to deduce that the Russians are making desperate stands between the rivers Pruth and Dniester. Grand Duke Nicholas, commander in chief of the Russian forces, reports that the fighting in southern Poland is of the most desperate character, while Vienna admits that the Russians are attacking in strong force. Austro-German sources, however, declare this effort to be a forlorn hope.

General von Linsingen's army, after a fortnight of terrific struggle, is reported by both Vienna and Berlin to have reached the whole front of the Zlota Lipa river, in east Galicia.

Admission that the Teutonic allies have advanced on the front between Krasnik and the river Vieprz is made in a statement issued at Petrograd.

German Official Statement.

Berlin, July 6.—The German army headquarters' statement says:

"Western theater: A British attack north of Ypres and a French attack against Souchesz were repulsed.

"On the western end of the forest of Le Pretre the Germans stormed 1,500 yards of the enemy's position and advanced for a distance of 400 yards. We made prisoners of about 100 unwounded Frenchmen, among them the staff officers of one battalion, and took two field guns, four machine guns and three light and four heavy mine throwers.

"The bombs thrown by aviators on Bruges, Belgium, fell in the neighborhood of the most valuable monuments of the town.

"Eastern theater: Teutonic allied troops under General von Linsingen have reached the whole front of the Zlota Lipa and have cleaned the west bank of Russians. In almost a fortnight of fighting against strong enemy positions we have forced a passage across the Dniester river and have driven the enemy from position to position."

French Official Report.

Paris, July 6.—The French war office statement says:

"In the region to the north of Arras two attempts at attack on the part of the enemy, preceded each by a violent bombardment, were checked by us. One was directed particularly against our positions in front of Souches. The Germans came out several different times from their trenches armed with grenades and bombs. We, however, compelled them to withdraw, leaving many dead on the ground. The other took place at 'The Labyrinth,' but it was at once stopped by our fire. The Germans assumed the offensive along a front of about three miles, stretching from Fey en-Haye to the Moselle. To the east of Fay en-Haye and in the western section of the forest of Le Pretre, along a front of about two-thirds of a mile, they were successful, after a very violent bombardment, in again gaining a footing in their old lines recently taken by us. But they found it impossible to move beyond these lines.

"Farther to the east on a line running from La Croix-des-Carmes to the village of Riept, on the Moselle, the Germans failed in an attack and they suffered very heavy losses."

MAITLAND BEATS SKIDMORE.

Nodaway County Team Lost Game on Foreign Field 2 to 4.

The Maitland base ball team defeated the Skidmore team at Maitland Sunday afternoon by a score of 4 to 2. Bundy pitched for Maitland and Thieman for Skidmore.

Week-End Visitors Leave.

Mr. and Mrs. A. E. Holmes of Kansas City, who spent the week end in the city, the guests of Mr. and Mrs. W. A. Burris, left this morning for a visit in Chicago.

Visiting at Shenandoah.

Miss Mary Stundon left this morning for Shenandoah, Ia., to spend the coming month visiting at the home of her uncle and aunt, Mr. and Mrs. Robert Lund.

FIRE DOES $175 DAMAGE

Defective Flue Fires Dwelling of Mrs. Heath Masters, First and Fillmore.

Fire, supposedly from a defective flue, caused a damage of between $150 and $200 to the two-story frame dwelling house owned by Mrs. Heath Masters, First and Fillmore streets, at 9:30 o'clock this morning. Prompt work of the fire department prevented further loss and perhaps the total destruction of the building.

The residence is occupied jointly by Perry Smith and Ernest McLain. The fire started in the roofing and extended to the upper story rooms. The most damage was to the roof and walls upstairs. All furnishings had been removed.

MRS. A. D. M'HENRY DEAD.

Funeral Services Held This Morning at Home of Mrs. C. L. Wright.

Funeral services for Mrs. Sarah Lucretia McHenry, 40 years old, wife of A. D. McHenry of St. Joseph, who died held at the home of her mother, Mrs. C. L. Wright, on North avenue, at 10 o'clock this morning. The service was brief and was conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church, assisted by Dr. W. B. Christy of the First Methodist church. The service was concluded at Miriam cemetery, where the body was buried.

Mrs. Wright died very suddenly at 5 o'clock Sunday morning. The funeral service was held at the home at 3 o'clock yesterday afternoon by Dr. Charles Petrie, pastor of the Hoffman M. E. church of St. Joseph, and the body was brought to this city last night and taken to the Wright home.

Mrs. McHenry was very well known in this city, where she spent her girlhood. She is survived by her husband, two daughters, Gladys Elizabeth, 14, and Zoe Mabelle, 12; her mother, Mrs. C. L. Wright; four sisters and two brothers. The brothers and sisters are Mrs. Charles Wilson of Westville, Okla.; Mrs. James Stevenson of Colorado Springs, Col.; Mrs. H. D. Snyder, Mrs. R. C. Seal and George Pat Wright of Maryville, and H. B. Wright of Sedalia. All were present at the funeral with the exception of Mrs. Stevenson and H. B. Wright. Mr. McHenry's mother, his sister, Miss Daisy McHenry of Stanberry, and his brother, Ellis McHenry, and wife of Wagoner, Okla., were in the city today to attend the funeral.

Mr. McHenry and daughters and Mr. and Mrs. Wilson of Oklahoma will remain for a time with the Maryville relatives.

K. OF C. PICNIC POSTPONED.

Annual Gathering of the Lodge to Be Held Sunday, July 11.

The annual picnic of the Knights of Columbus scheduled for Sunday at Normal park was postponed until next Sunday. The deferment was made on account of the bad weather and park conditions.

The gathering will be held July 11, and all plans made for the picnic on July 4 will be carried out the same at that time.

Addresses will be made by Judge F. M. Ryan and the Rev. Father Flemming of St. Joseph and all amusements announced for the event will be carried out.

Returned from Eastern Trip.

S. G. Gillam and son, Forrest, returned Saturday noon from an eastern trip of three weeks. They visited New York, Boston, Washington, Chicago and a number of other places.

Home to Spend Fourth.

A. D. Arnett and Erick Zanders, who have been employed in decorating the new home of W. H. Runyon at Coin, Ia., came to Maryville Saturday and remained until after the Fourth.

539 IN NORMAL; BREAKS RECORD

BIGGEST SUMMER ENROLLMENT DIVIDED INTO 123 CLASSES.

57 ARE OF COLLEGE RANK; 66 SECONDARY

Large Number of State Students Are High School Graduates, Registry Indicates—Many in Athletics.

The enrollment for the summer session of the State Normal school reached a total of 539 yesterday, according to President Richardson. This breaks all previous records in Normal attendance. The record attendance last year was 520.

The daily work of the institution is distributed over eight class periods, including a total of 123 classes with a total membership of 2,376. Of the 123 classes, 57 are of college rank, which indicates that quite a large portion of the summer school students are graduates of four-year high schools or have work in excess of that.

The work of the students is distributed as follows: Department of education, 268 class memberships of college rank, 244 of secondary rank. In the department of home economics, 101 students of college rank are registered.

In the several phases of science, including physics, chemistry, geography, biology, 1200 are enrolled in college rank classes, 159 in classes of secondary rank.

In the department of English, including reading and public speaking, 173 students are in classes of college rank, 243 are in classes of secondary rank.

In foreign languages 17 students are doing work of college rank, 13 of secondary rank. In history and civics, 80 students are registered in classes of college rank, 217 inclasses of secondary rank.

Mathematics, 43 are enrolled in biology, 120 are enrolled in college college rank, 217 in classes of secondclasses of college rang and 193 are enrolled in classes of secondary rank.

Ninety-eight students are registered in bookkeeping, penmanship and typewriting classes; 148 are registered in classes of the department of art; 50 are enrolled in the manual training classes; 34 in organized classes of physical education, while 30 enrolled for base ball practice and 51 for tennis. Ninety-four students are enrolled in various classes in music.

The large number of enrollments in classes of secondary rank in history, mathematics, English and education is due to the demand for approved grades in these subjects to be applied upon county certificates.

STEAL PICNICKER'S WATCH.

Frank Mathes Misses Jewelry from Coat After Frolic at Normal.

A watch and chain were stolen from the coat of Frank Mathes about 6 o'clock last night at the Normal ball grounds stand, according to report made by Mathes to the police. No arrests in the case have yet been made.

Mathes was a member of the Buchanan Street Methodist picnic and had lain his coat on a seat of the grandstand at the ball grounds during the afternoon. When he returned for the apparel, the watch and chain were missing.

WEATHER BUREAU AIDS ALL

Government Spends $1,600,000 Yearly in Department—How It Is Done.

Farmers, shippers, merchants, lecturers, teachers, florists, candy makers, circus men, picnickers, fruit growers, traders, real estate men—to almost every man and woman, profession, business and trade is the weather bureau of some service says the University Missourian. It continues:

We read the weather reports in the paper and the ones on the small cards posted in their envelope holders, or glance at the map of the United States with mysterious curved lines—some continuous, some dotted—running over it and read below: "For Missouri" and then "Weather Conditions in General." If the indications are that warm weather will follow the next day the farmer plans to plant, reap or build fences accordingly. The shipper figures on a larger amount of ice in the refrigerator car or more water for his live stock, the merchant advertises his foods and garments for warm weather, and so on through the whole line of people the weather man serves.

Making the Weather Map.

But how do these notices get in the papers? Where do the cards and maps come from. A visit to a weather bureau is then taken.

Upon first entering, one might think that he is in a small printing office. In fact that is just where he is. A small press run by electric motor, two cases of type, a gas furnace for melting metal, some chalk plates and a can of ink make up the equipment. The work in this shop is done by an assistant. The type for the small cards is set up and copies run off on the press.

But making the daily weather map is a much more tedious matter and requires expert knowledge. First the chalk plate is used. By the use of steel pen lines are drawn on this plate, which is covered with a thin chalk preparation.

Isobars or continuous lines, pass through points in the United States which are of equal air pressure.

Isotherms, or the dotted lines, pass through points of equal temperature. Small circles, locating the more important cities, are left blank, partly colored or wholly colored, marked with R, S or M to indicate clear weather, partly cloudy, cloudy, rain, snow or report missing of these various points.

Small arrows pointing out from these circles show the direction of the wind. Shaded parts of the map show precipitation of one-tenth of an inch or more during the last twenty-four hours.

Print Two Hundred Maps.

The chalk plate is then covered with melted metal which is pressed down into the lines and marks made by the pen. When the metal plate is cool, it is taken from the chalk plate, sawed into the right size and shape and put on the press.

These reports are taken from observations made at 8 o'clock in the morning and forecast the weather up to 7 o'clock next morning.

To find out how the observer makes these observations we must leave the print shop and go into another room in which we find several peculiar instruments. We are all accustomed to the two fundamental ones. They are the thermometer and barometer. Similar instruments have been in use many years.

The thermometer was invented in 1643 and the barometer in 1590. Modern stations are equipped with more complex instruments of the same general nature and serving the same purposes. One of them is the thermograph.

This is a small instrument with electric attachment and inclosed in a box.

Another of the modern instruments is the barograph. This gives a continuous reading while the thermograph records automatically. The barograph is an instrument which records the continuous air pressure.

Hills Affect Weather.

Observations from these are marked on the maps. In order, though, to make the complete forecast one must be acquainted with the topography of the country. Mountains, hills, valleys, and rivers affect weather conditions by changing and breaking up storms, cold waves and other air currents.

Like all other departments, the Weather Bureau has been investigated by a committee appointed by Congress.

The service was organized in 1870. It is costing the government $1,600,000 a year to run it. The question was raised as to whether or not it was paying and a committee was appointed to find out. They found it was one of the nation's best investments.

Before the service began, storms along the Pacific coast had been destroying an almost inestimable amount of property with the showed the Weather Bureau had saved seventeen million dollars in six storms and that during one season on the Atlantic coast thirty million dollars had been saved by the weather reports.

The great part of the loss of many lives. Investigation established, was on the part of the shippers who would start their shipments not knowing the unsettled conditions of the weather or that a storm would catch them before they reached their market.

Today the service warns them of the dangers and they choose good days for their shipping.

HOTCHKIN RESIGNS AS MANAGER.

Graham-Latimer Head Will Be Field Man for Tribune.

D. E. Hotchkin has resigned as manager of the Graham-Latimer store, to take effect July 17, to accept a position with the Tribune as field man. Mr. Hotchkin has been manager of the store for a year and a half, and before that time was the proprietor of the store for five years. His resignation was tendered three months ago, but was not accepted, being unable to secure a competent manager.

CIVIC CLUB MAKES CHANGE.

Name Committee for Monthly Meetings —First to Be Held July 14.

A new plan in Commercial club activities was made at a weekly meeting of the club at noon today, whereby a committee of three members are to be appointed monthly by the club president to arrange for the regular monthly meetings of the organization. They are to arrange a program and the banquet and get out the members as extensively as possible.

The first committee will be composed of Charles McNeal, W. O. Garrett and W. S. Todd, they being named today by President C. C. Hellmers. They will meet at the club rooms at 8:30 o'clock tomorrow night to arrange for the next monthly meeting, to be held Wednesday night, July 14.

Off to Attend Board Meet.

George Baker went to St. Joseph yesterday afternoon to attend a meeting of the board of state hospital No. 2 there today. It is rumored there are several changes in the hospital staff to be made by Governor Major.

Visits Sister Here.

Mrs. Frank Perry, who is enroute from San Antonio, Texas, to join her husband in their new home in Canada, is stopping off for a two weeks visit with her sister, Mrs. W. P. Howland, 522 West Third street.

St. Joseph Visitors Leave.

Mr. and Mrs. Dale Peery of St. Joseph returned to their home this morning after a week-end visit in Maryville with Mr. and Mrs. M. A. Peery.

Maysville Visitors Here.

Mrs. Frank Spencer and baby daughter arrived in the city Saturday from Maysville to visit Mrs. Spencer's parents, Mr. and Mrs. W. L. Ruddell.

Returns to St. Joseph.

Mrs. C. L. Broce of St. Joseph, who has been spending several weeks at Clyde visiting her daughter, Mrs. Chris Juhl, returned to her home Saturday.

Epworth League Picnics.

Members of the Epworth League of the First Methodist church held a picnic at McJimsey's lake, northeast of the city yesterday afternoon.

Left for Colorado.

Harvey McClary left Monday for a ten days' visit in Denver, Colorado Springs and Pueblo. He spent Monday in Omaha attending the auto races.

BUTTER NUT IS COMING.

Miss Lake Here.

Miss Hazel Lake, who is employed at Des Moines, Ia., spent Sunday and Monday in the city visiting her mother, Mrs. Alice Lake.

Herndon & Bishop, A. M. Sutton, W. M. Hartman, W. W. Alexandra, Lowery & Sheely, Sherlock & Co. and E. Archer were shippers from Nodaway county to the St. Joseph stock market Saturday.

Miss Lora McDowell and Miss Louise Shingle of this city returned today from a week's visit at Hopkins and Bedford.

Petrograd citizens paid $10,000,000 more for actual necessities of life in 1914 than they did in 1913. The advance in prices was due to the war.

Herman Linneman spent the Fourth at Burlington Junction visiting his uncle, Herman Gebbeken, and family.

And Then Stigall Quit.

St. Joseph Observer.

In Judge Allen's division Thursday, Attorney Louis Stigall, who is a first-class interrogator and can make a witness "tell it" whether the witness wants to or not, met his Waterloo when he went up against a witness of foreign extraction. After Stigall had looked his man over he began:

"Now, Lazky, what do you do?"

"Ven?" asked Lazky.

"When you work, of course," said the lawyer.

"Vy, work——"

"I know," said the lawyer, "but what at?"

"At a bench."

"Oh," groaned the lawyer. "Where do you work at a bench?"

"In a factory."

"What kind of a factory?"

"Brick."

"You make bricks?"

"No, de factoryis made uv bricks."

"Now, Lazky, listen. What do you make in that factory?"

"Eight dollars a week."

"No, no! What does the factory make?"

"I dunno; a lot uv money, I think."

Now, listen! What kinds of goods does the factory produce?"

"Oh," said Lazky, "good goods."

"I know, but what kind of good goods?"

"The best."

"The best of what?"

"The best there is."

"Of what?"

"Of dose goods."

"Your honor," sighed Stigall, "I give up."

Market Live Stock.

W. H. Ramey, C. D. Caldwell and James Milbanks, Nodaway county stock men, marketed live stock in St. Joseph yesterday.

Return to Kirksville.

Dr. and Mrs. Sumner Still of Kirksville, who have been visiting at the home of Senator and Mrs. Anderson Craig, returned to their home Saturday.

Missouri has the largest wild animal market in the United States, at the farm of W. P. Hall of Lancaster, Missouri, who has a corner on the elephant market of the world and is the largest individual horse buyer in the United States.

A marriage license was issued Saturday afternoon by Recorder Baker to Cladie Clark and Maud Hawk, both of Sheridan.

Coal Oil Good to Use.

Poultry houses and runs should be kept absolutely clean at all seasons, but at this season, when mites and disease germs multiply so rapidly, extraordinary care should be taken. Now that eggs are no longer wanted for hatching purposes, one may make freer use of kerosene, one of the cheapest and best vermin destroyers obtainable.

Use it freely around the roosts and sprinkle all corners and protected places where mites or lice may lie hidden. But be careful not to sprinkle it on your chicks, as it will badly burn them, and if enough kerosene gets on a baby chick it will go the same route as the mites.

Give Epsom Salts to Fowls.

It will be well to occasionally place a tablespoonful of Epsom salts to each half dozen mature fowls or dozen half-grown chicks, either in their mash feed or in drinking water. This will help to rid them of any intestinal worms they may be troubled with, and will also help to cleanse the system of other troubles.

Broody Hen is a Worry.

One of the poultryman's worries these days is the brody hen. It sometimes seems as if all the hens wanted to quit work and go to setting. A good way to handle the broody hens is to gather then up at night and place them in a slat bottom coop away from the other chickens. Feed lightly but provide plenty of water.

Women at the University of Missouri at Columbia are learning to swim this summer under the direction of the instructor in physical education for women.

Smallest cows in the world are found in the Samoan islands. The average weight does not exceed 150 pounds, while the bulls weigh about 200 pounds.

The greatest factor in national or state economics is transportation, and the greatest single factor in economical transportation is good roads.

The Sure-Fit Truss for Rupture.

B. M. Heflin of Fremont, Neb., the expert truss fitter, will be at the Ream hotel July 8, 8, 9 and 10 with the Sure-Fit truss for rupture, which works with the body, holding rupture constantly. This pad manipulates the ruptured part in such a manner that it strengthens the weakened muscles and in time will close up opening. No leg traps, rubber or steel bands to contend with.

Hundreds of people are wearing the truss satisfactorily. If you want a truss which will hold rupture constantly, see me at the Ream hotel, June 7, 8, 9 and 10.

URGES OILING OF ROADS.

Dean McCaustland, University of Missouri Warns Supervisors to Investigate Quality.

"Attempts are now being made," says E. J. McCaustland, dean of the school of engineering of the University of Missouri, "in several parts of the state to keep dust down by the use of road oils. Supervisors should be careful to investigate the quality of oil they use before putting it on the highways. It is not generally understood that there are two distinct types of oil on the market.

One of these oils has an asphalt base which serves as a binder on the road as soon as the lighter oil evaporates. The other has a paraffin base, and is to all intents and purposes a lubricating oil. This kind of oil, however, does not hold the road hard, or is not binding. It leaves the roads musty and sticky.

"Road oiling, properly done, gives a good surface. The city of Joplin has done some of this work on its roads that have already carried heavy traffic more than a year and now look as good as asphalt pavement.

"Any Missourian may send samples of road oils to the Engineering Experiment Station, University of Missouri, Columbia, and have them examined at a moderate cost, merely enough to pay for the use of materials in the laboratory.

"Sometime ago the Engineering Station issued a bulletin giving complete information on the quality of various materials throughout the state for road making purposes. This bulletin is still in print and will be sent free. Its title is 'Investigation of Road Making Properties of Missouri Stone and Gravel.'"

Colorado has been using convict labor in improving her highways for the last seven years. So successful has it proved in this state that others have modeled their laws and plan of operation after those of Colorado, and the governors during their annual conference at Colorado Springs last August spent much time in studying at first hand the wonderful highways that Colorado has built by convict labor.

Deafness
Are You Deaf or Hard of Hearing?
Now is the ideal time to treat deafness. Ninety per cent of all deafness is caused by catarrh. Dr. Edwards of St. Louis has discovered and perfected an operation for catarrhal deafness which is remarkable for its many cures. There is no cutting and it is painless. I am now using this operation in Maryville with remarkable success. Every patient treated by me has been cured or greatly benefited.

STECHER WINS WRESTLING TITLE

Nebraska Farmer Boy Throws Cutler In Straight Falls.

NOW CHAMPION OF THE WORLD

Dodge Lad Wins With His Famous Scissors Hold, Coupled With Half Nelsons—Ten Thousand People See Contest at Omaha.

Omaha, July 6.—Joseph Stecher of Dodge, Neb., farmer boy, is the champion heavyweight wrestler of the world.

Before a crowd estimated at 10,000, which filled Rourke's park to overflowing, the unassuming young man whose meteoric career has made him a noted figure in the world of sport, won two straight falls from Charles Cutler of Chicago, who since the retirement of Frank Gotch has been defending the heavyweight championship.

Stecher won the world's championship with his famous body scissors hold, coupled with half nelsons.

The first fall came in 17 minutes and 3 1-5 seconds. The next fall, after an intermission of a quarter of an hour, came in 10 minutes and 50 seconds.

Cutler outweighed his opponent by a good twenty pounds, but within a few minutes after the beginning of the match, it was apparent that the extra weight was of little advantage to the Cricago grappler.

It was the old, old story of youth against age.

Stecher Hooks Scissors.

Soon after the start of the match they went under the ropes, with Stecher behind. He was given this position after they were placed in the center of the mat, and hooked the scissors in a very short time.

Then began the punishment that was the downfall of Cutler. After the Dodge county wonder had squeezed Cutler with his scissors for about four minutes the terrible pressure began to tell and Cutler was seen to look at Frank Gotch and shake his head. The pain he was forced to endure was plainly evident.

Cutler made a heroic effort to get away and again they went under the ropes. After they returned to the center Cutler edged away and Stecher seemed in danger for a moment, but he soon twisted behind and again hooked his scissor. For almost ten minutes Cutler was forced to endure the terrific pressure of those gigantic legs of the Dodge county farmer, with Joe all the while trying to twist the giant over with a half nelson. After 17:03 minutes of wrestling he succeeded in putting both Cutler's shoulders to the mat and Referee Ed Smith patted him on the back.

Rooters Cheer Stecher.

Pandemonium broke loose from the thousands of Stecher rooters, until it was noticed that Cutler failed to rise. He lay on his stomach in the middle of the padded ring for several minutes, until he was assisted to his corner, but when the agreed fifteen minutes was up he walked to the center.

After nine minutes Cutler hooked a half nelson and a bar hold on Stecher and it looked like the Dodge boy was going to the mat. But here was where Stecher showed the stuff of which he is made by twisting away by main strength.

Cutler got behind immediately, but Stecher raised himself to his feet and threw Cutler over his head and immediately got behind, hooked his scissors, when the Dodge boys started for home, for they knew the match was over, and it was, for Cutler did not offer much resistance this time after those fearful legs were wrapped around him. The fall took 10 minutes and 59 seconds.

DESTROYERS ESCORT THOMAS

Liner Carrying British Purchasing Agent Convoyed Down Channel.

New York, July 6.—The American line steamer St. Louis arrived here from Liverpool. It was escorted down the St. George channel by two torpedo boat destroyers to a distance west of Daunt's rock, probably owing to the presence on board of Mr. D. A. Thomas, the British capitalist and coal operator. Thomas comes here to supervise and expedite the production of munitions for the allies.

The two destroyers remained with the St. Louis two days and nights, it was said, and did not leave it till the war zone was cleared.

Troops of Villa Occupy Saltillo.

Laredo, Tex., July 6.—Important Villa troop movements near Monterey are reported by passengers from that city. They announced that Villa forces have occupied Saltillo, which is about thirty miles southwest of Monterey, and that there are [illegible] troop movements, as if in preparation for a battle, near Pareon, about thirty miles northwest of Monterey. The truce between Villa and Carranza troops around Villa Garcia lasted one day, to give time for burial of dead.

Pullen Winner of Tacoma Auto Run.

Tacoma, Wash., July 6.—Eddie Pullen won the 200-mile Golden Potlatch automobile race on the Tacoma speedway, his time being 2 hours 21 minutes and 14 2-5 seconds. Earl Cooper was second and Barney Oldfield third.

SOCIETY *and* CLUBLAND

By KATE SCHENCK

PHONES—OFFICE 42. HOME 689

Dinner Party.

Dr. and Mrs. C. A. Bone were the hosts of a dinner party given Saturday night complimentary to Mr. and Mrs. Roy W. Pettit.

Miss Fordyce Entertains.

Miss Mary Fordyce was the hostess of a dinner party given at noon Sunday, when she entertained Miss Mamie Morris, Miss Ola King, Miss Ora King, Edgar Hull, Earl Simmons, Harry Hartness and Perry Onstott.

Mr. and Mrs. Wallace Entertain.

Mr. and Mrs. John Wallace gave a supper party last night at their home, on East Second street, entertaining Mr. and Mrs. M. L. Powell of Pickering and Mr. and Mrs. Will Edwards and daughter, Augusta.

For Visiting Friends.

Mrs. William Rifenrauth and children and Miss Gertrude Quast of Crofton, Neb., who are visiting friends in the city, were the guests at a Sunday night tea given by Mrs. Josephine Yehle, and daughters, Misses Katherine and Theresa Yehle.

Stafford Dinner Party.

Mr. and Mrs. George Stafford gave a dinner party Sunday noon at their home, 816 South Market street, entertaining Mrs. M. E. Farrar, Mrs. W. B. Carter and son, Harlan, of Lawrence, Kan.; Miss May Farrar of Brookfield and Miss Eva Farrar.

For Des Moines Guests.

Mr. and Mrs. Frederick Harley French were the hosts of a dinner given at noon Sunday at their home, on West Fourth street, complimentary to Mr. and Mrs. B. C. Huffine of Des Moines, Ia., who are visiting Mrs. Huffine's mother, Mrs. M. A. Martin. Plates were laid for Mr. and Mrs. Huffine, Mrs. Lizette Lippman, Miss May French, Pierce Lippman of St. Louis and the hosts.

Price Family Celebrates.

The members of the Price family spent the Fourth by enjoying a day's recreation and picnic dinner yesterday at Horseshoe lake. Those in the party were Mr. and Mrs. J. P. Price and daughter, Maida; Mr. and Mrs. R. S. Braniger, Mr. and Mrs. J. M. Smith, William Price and daughters, Mrs. Ellis Garrett and Mrs. Olive Garrett, Mr. and Mrs. W. B. Price and daughter, Anna Marie, Mr. and Mrs. Ralph Price, Clun, John, Jr., and Harry Price, Dr. Earl Braniger, Joe and Byron Price.

In Honor of Miss Myers.

Mr. and Mrs. John Holtman of Conception Junction entertained a party of friends on the Fourth complimentary to Miss Rosa Myers of this city, who is visiting at their home. The guests were Miss Myers, Miss Martha Villing, Miss Hilda O'Reilly, Miss Nora Ellerman, Misses Loretta and Ora McManus, Miss Helen Elizabeth Keutter, Charles Villing Matthew and Fre O'Reilly, Ben and George Jermain, Cornelius and Harold McManus.

For Miss Lyle.

Mr. and Mrs. Robert Lyle entertained the various members of the family with a dinner Sunday noon at their country home, southeast of the city, arranging the gathering in honor of their daughter, Miss Floy Lyle, who has recently returned from a year's work in the government schools of Porto Rico. Plates were laid for Miss Lyle, Mrs. Myron Mitchell Blackman and daughter, Margaret, of Kansas City; Mr. and Mrs. Harry Lyle and son, Harry, Jr.; Mr. and Mrs. Lester Lyle, Miss Clara Roelofson and the hosts and family.

Baptist Society Meets.

The meeting place of the Women's Missionary society of the First Baptist church, which was to have been held Friday afternoon at the country home of Mrs. Eugene Ogden, was changed on account of the rainy weather to the home of Mrs. William Everhart, on South Main street. The regular program was carried out. The August meeting will be the annual business session.

Entertains Club.

Mrs. Sallie Hughes, president of the I. I. club, entertained the club members with a very pleasant afternoon at her home, northwest of the city, Thursday afternoon. During the entertaining hours the hostess was assisted by Mrs. Anna Osborn in entertaining her guests, who were Mrs. Frona Shell, Mrs. Carrie Halasey, Mrs. Mamie Taylor, Mrs. Anna Osborn, Mrs. Sallie Shell, Mrs. Belle Hall, Miss Vivian Marie Taylor, Miss Lyda Onstott, club members, and Mrs. Florence Chrisen of El Reno, Okla., and Mrs. Lucretia Onstott, who were visitors.

Trullinger Dinner Party.

Mr. and Mrs. Henry Trullinger entertained a number of relatives with a dinner party Sunday at their home on West Twelfth street. The diners were seated at two long tables and the party included Mr. and Mrs. A. S. Robey and family, Mr. and Mrs. Marion Lugar and son, Mr. and Mrs. Otho Robey and two children, Mrs. Anna Daniels and sons, Ernest and Harold, and daughter, Leta; Mr. and Mrs. W. L. Robey and family, Kenneth Daniels of Kansas City, Mrs. Verna Murphy, Miss Virginia Lawson and Mr. and Mrs. Trullinger and sons, Glen and Harry.

Picnic at Thornhill Farm.

A picnic and joint reunion of the Thornhill and Wallace families was held Sunday at the country home of Mr. and Mrs. William Thornhill, three miles east of the city. At noon a sumptuous picnic dinner was spread under the shade trees and the afternoon spent with outdoor games, including a base ball game, sack race and other athletic events. The party, which included fifty persons, was composed of Judge and Mrs. John Thornhill and their guest, Mrs. Josie Cadwell, and daughter, Kitty Jane, of Caney, Kan.; Mr. and Mrs. John Wallace, Mrs. Calista Dawson and daughter, Miss Eva Dawson, and their guest, Mrs. Cora Fowler of Edina, Mo.; Mr. and Mrs. W. G. A. Edwards and daughter, Augusta; Mr. and Mrs. Omar Wallace and son, John Curtis; Mr. and Mrs. George Wallace and daughters, Doris and Mildred; Mr. and Mrs. Bert Hilsabeck and children, Edna and Wallace; Verne Wallace and Frank Wallace of this city, Mr. and Mrs. Stanton Garten and children, Helen, Raymond and Bertha Clair, Mrs. Hester Green of Pickering, Mrs. M. L. Powell of Hopkins, Mr. and Mrs. Walter Dickie and two nieces, Etta and Georgia Ellen Trusty of Burlington Junction, Mrs. Nelle Newlon and two sons, Mr. and Mrs. Lon Lyle and son, Lon William; Mr. and Mrs. C. F. Ashford and daughter, Thelma; John Ashford and Mr. and Mrs. William Thornhill and sons, John Merril and Leon Curtis.

Missouri has more sheep than any of her border states. With the exception of one other state no other state has so many sheep worth so much money per head.

The world's greatest harness horse, Nala, was foaled in Missouri.

MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

USE MORE PAINT IN CAMPAIGN.

Output of Mineral Ingredients Increased in 1914 Through "Clean Up" Move.

Statistics compiled by J. M. Hill and just made public by the United States geographical survey show a greater production of mineral paints during 1914 than in 1913. This increase is particularly marked in the white pigments made from both lead and zinc, and is of interest as showing the results of the "clean up, paint up" campaigns which have been in progress.

In 1914 there were 66,566 short tons of domestic ocher, umber, sienna, mineral paint, mortar color, and ground slate and shale sold, which was less by 4,029 tons than the sales of similar pigments in 1913. The output of white pigments—zinc oxide, leaded zinc, and the basic sulphate of lead produced by sublimation showed an increase of 10 per cent in value over 1913. During 1914 there were sold 106,791 short tons of these pigments, for $9,978,710.

The lead pigments made chemically, including basic carbonate white lead, litharge red lead, and orange mineral, and the chemically prepared zinc barytes pigment lithopone likewise showed a decided increase; 245,206 short tons of these pigments were sold in 1914, for $27,621,829.

Missouri has the hen's biggest nest, the poultry products exceed annually in value the combined annual output of gold and silver of California, Colorado and Arizona, and is annually greater than one-half the annual production of gold in the United States.

Prof. P. O. Landon went to Jerseyville, Ill., to spend the Fourth visiting his sons, Truman and Court, who are making their home this summer with their grandmother, Mrs. Mary A. Landon.

Guests at Manley Home.

Mr. and Mrs. B. O. Hazelrigg of Harold, S. D., arrived in Maryville yesterday for a month's visit with Mrs. E. T. Manley and family.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

STOCK MARKET IS STRONG

Cattle and Sheep Sold Higher While Hogs Hold Own in Kansas City Yards.

Kansas City, July 5.—Cattle sold as well as could be desired today. Trade active and prices steady to strong, some sales 10c higher. The good market today follows a rise of 15 to 35 cents last week, and notwithstanding a weak to lower report from Chicago. Features today were the sale of prime steers finished on grass.

One instance was by way of the Missouri method, strong wintered steers, fed out on the grass, this sale being made by J. E. Bohart, Plattsburg, two loads steers, 1,381 pounds average, at $9.65, a new high top on heavy steers here for this year.

The other feature sale was steers finished by the Kansas plan, strong wintered and turned on the grass in this case April 26th, without other feed, E. H. Lehman, Rosalia, the seller, one car load 1,342 pounds average, at $9.35. Bulk of the natives sell at $8.50 to $9.25. There is a demand for fleshy steers from Illinois feeders, some of these today at $8.40. Stock steers are firm, but quality is generally lacking, most sales at $7.00 to $7.65, stock calves at a wide range, $6 to $8.50.

In the quarantine division 60 car loads arrived, including and good weight north Texas steers at $8.05 to $8.90, prices fully steady, some wintered Oklahoma steers at $7.40 and $7.50, and some grass steers from both Texas and Oklahoma at $6.40 to $7.40.

Immense amounts of all kinds of meat, including fresh beef, are being sent abroad, and exports of live cattle will soon be an important item, conditions that make market prospects promising.

The hog market developed strength after a 5c lower opening, closing sales steady with Friday, top, $7.70, bulk of sales $7.50 to $7.65. Quality is very good, and average weight for June was 197 pounds, points that indicate conservative marketing in the country, and most dealers look for some advance in prices this month.

Order buyers are fairly strong buyers, and packers appear to have a place for a good many hogs here, as they are bringing in several trains a week, bought at up-river markets.

Sheep and lambs sold 10 to 15c higher today, receipts 4,400. Nine loads of Arizona spring lambs were included today, selling at $9.65 to $9.90, native springers $9.75.

Native ewes are worth $ to $5.50.

Some feeding stock is available, range feeding lambs selling at $6.25 to $7.25, and breeding ewes $5 to $6, choice young breeding ewes up to $6.65. Feeding lambs at present prices will prove to be cheap a little later on.

What do you want to sell? List it in Hosmer's sale next Saturday. 6-8

REAL ESTATE TRANSFERS.

List of instruments filed in the recorder's office of Nodaway county, Missouri, for one week, beginning June 28, 1915:

Eldon E. Lloyd to Stella D. Lloyd, June 26, 1915, half interest in lot 2, block 20, Saunders' addition to Maryville, $1.

Frederick P. Robinson to Mildred Robinson, June 25, 1915, lot 16, block 1, West Terrace place addition to Maryville, $1.

Frederick P. Robinson to Mary M. Robinson, June 25, 1915, half interest in lots 1, 2, 9 and 10, block 2, Robinson Place addition to Maryville, $1.

Jennie I. Bell to Charles T. Bell, June 25, 1915, lot 1, block 1, West Terrace place addition to Maryville, $1.

Rebecca J. Robinson to Frederick P. Robinson, June 25, 1915, lots 3, 4, 5, 6, 7 and 8, block 2, Robinson place addition to Maryville, $1.

Rosa Sweeney to Abner Goodwine, June 26, 1915, lot 4 and S ½ lot 5, block 3, Ravenwood, $400.

Edward E. Sweeney to Rosa Sweeney, Dec. 26, 1906, lot 4 and S ½ lot 5, block 3, Ravenwood, $350.

Minnie C. Gates to John M. Gates, June 24, 1915, N ½ SW 20-64-36, $1.

Edward Otis to Mary Buhler, Oct. 8, 1915, lot 2, block 1, Stevenson's addition to Maryville, $3,000.

Shoo-Fly, the animal's friend. Sold by Koch Pharmacy.

Card of Thanks.

To all the kind neighbors and friends who assisted and helped in the last sickness, death and burial of our sister, Emily Monroe, we wish in this inexpressible hour of sorrow and grief to return our heartfelt thanks. We feel that we owe a debt that can never be paid.—Mrs. Catherine McKibban, Angus Monroe.

New Jersey in 1891 was the pioneer state in providing state aid for public highways. Since then other states have adopted the policy in quick succession. Only seven states, Florida, Georgia, Indiana, Mississippi, South Carolina, Tennessee and Texas, have no form of state highway department whatever, although Georgia grants aid to the counties for road improvement by lending the services of the entire male state convict force.

The waltz is a national German dance, and was introduced into England by a German baron 100 years ago.

STIMULANTS KEEP DEATH FROM QUIGLEY

Physicians Hold No Hope of Recovery of Archbishop.

Rochester, N. Y., July 6.—The condition of Archbishop James Edward Quigley of Chicago, who lies at the point of death in this city at the home of his brother, Chief of Police Joseph M. Quigley, showed little change. The attending physicians held out no hope of recovery, but expected to be able to keep the patient alive for some time by use of stimulants. His mind remains clear.

ADMIRAL ADVISES CAUTION

Von Truppel Urges Concessions to United States.

Berlin, July 6.—Admiral Oscar von Truppel, late governor of Kiauchau, the German concession in the Chinese province of Shantung, captured in November by the Japanese, contributes an article to Der Tag, warning his compatriots not to underestimate the danger of a breach with the United States and asking them to weigh seriously the question whether the value of Germany's submarine warfare against British commerce is great enough to justify a continuance of its present form at the expense of a rupture with the transatlantic nation.

The article is remarkable not only for its open statement regarding the wide-reaching effects which the participation of America in the hostilities might exercise on the future course of the war—effects which Admiral Truppel says are greatly under-estimated in Germany—but also as a contribution from a naval officer.

Norwegian Bark Sunk by Submarine.

London, July 6.—The Norwegian bark Fiery Cross has been sunk by a German submarine seventy miles southwest of the Scilly islands. Its crew of eighteen men, after twenty hours in open boats, landed at Swansea. Among the crew are six Americans.

DETECTIVES TRACE HOLT'S MOVEMENTS

Washington, July 6.—The police located the house where Frank Holt stopped in Washington when he came to plant the bomb which wrecked a room in the capitol. It is a rooming house between the capitol and the Union station, and in searching the room detectives found an empty bottle which had contained sulphuric acid.

The house was located by a drawing which Holt himself gave Superintendent Pullman of the Washington police at the jail. Holt described the surroundings and drew a plan. Detectives went to the roof of a building in the neighborhood, checked up Holt's drawing with the landscape and picked out the house. All that the attendants there remembered about Holt was that he stayed there a few hours and asked for a bath.

Police Chief Pullman revealed a hitherto unmentioned incident in Holt's statement to the police. Holt planned to throw his suit case, containing dynamite into J. P. Morgan's automobile in case he passed it on the way to the Morgan home.

"He told his chauffeur," said Chief Pullman, "that he was a friend of Mr. Morgan's and that he was expected."

"If we meet him on the road just signal him to stop and throw in my suit case," he told the man."

The suit case contained enough dynamite to blow the motor car into bits.

Next Saturday is Hosmer's stock sale. What do you want to sell? 6-8

SAFETY · COURTESY · SERVICE

POCKET CONTENTS TELL SECRET.

Story of One's Life May Be Revealed By Search Through Clothes.

The average modern man has at least 14 pockets in his clothes. In these pockets thru the things that are in them, you can tell the story of what the man has been doing in the past, what he is doing today, and what he hopes to do in the future.

In these pockets he carries his watch, pocketbook, papers and many old letters and clippings from newspapers.

Supposing that you were found dead in some out-of-the-way place and while there was nothing on your person to indicate your name or residence, the things you had in your pockets would give a very good idea of the nature of work you had been doing.

If you happened to be an attorney, doubtless you would have briefs, suggestions, letters relating to your business. Probably a digest of important laws, and many other things that would lead the police, as they turned the story over to the papers, to say: "A man, evidently an attorney, was found dead on the streets last night."

If you happened to be a physician, there would be many little things, thermometer, hypodermic syringes, pellets and pills, together with a glossary of medical terms that would reveal much relative to your personality and work in life.

Suppose, for any reason, you should come under the surveillance of the police and be arrested and "held as a suspicious person." The things found in your pocket would tell largely what kind of a man you were.

It would not be expected that if you were an upright and honorable citizen you would have vulgar and obscene pictures in your pockets. Neither would you have poetry, so-called, that told of vicious and wicked acts committed by licentious men.

If you were all you claimed to be your pockets would bear strong evidence to the truth of your statements. You would hardly expect to find a Bible in the pockets of a shell game man or a pamphlet on "How to Play Poker" in the pockets of a minister of the gospel.

It is to be expected that boys passing thru the green and callow age will have in their pockets things from which either the worst or the best might be inferred, but the things a man has in his pockets will tell largely what kind of a man he is.

What are in your pockets today?—Our Country.

Returns to Des Moines.

B. C. Huffine of Des Moines, Ia., left yesterday for his home after a short visit in Maryville. Mrs. Huffine, who accompanied him, will remain for a longer visit with her mother, Mrs. M. A. Martin.

Missouri grew 225,000,000 more bushels of corn on the same acreage during the years 1912, 1913, and 1914 than did Kansas. Half the total number of counties in Missouri grow more corn than is grown in half the total number of states in the Union. One farmer in Missouri has grown more corn than was grown at that time in nine different states in the Union.

RICKENBACHER WINS 300-MILE AUTO RACE

Orr Thrills Crowd at Omaha by Breaking World's Record.

Omaha, July 6.—Eddie Rickenbacher, driving a Maxwell, won the first annual 300-mile gasoline classic at the new Omaha speedway. His time was 3:17:39.20, an average of 91.74 miles an hour.

Eddie O'Donnell, captain of the Deusenberg team, was second, clipping the distance at an average of 86.16 miles an hour. Tom Orr, Rickenbacher's Maxwell teammate, was third, traveling at an average of 82.30 miles an hour, and Lou Donaldson piloted his Emden into fourth money. W. W. Brown, in a Du Chesnau, was flagged off the track after he had done 120 laps. Thirty thousand people saw the race.

Never once did Rickenbacher lose the lead. Billy Chandler of the Deusenberg team was in hot pursuit for a few miles, but Billy's car went to the bad and he was forced to succumb. When Chandler left the race, Eddie O'Donnell took up the chase, but Eddie couldn't drive the turns quite as fast as Rick, and even though he passed him occasionally on the stretch, Rickenbacher came in fifteen laps ahead at the finish.

Tom Alley and Billy Chandler of the Deusenberg team, and Joe Cooper of the Sebring were all forced out of the race by mechanical difficulties. Their cars couldn't stand the double grind of two days' racing in three days. All three were driving good races when they quit.

Tom Orr, driving a Maxwell car, furnished a thrill to the crowds by breaking a world's record. Orr broke the record for five miles by turning the distance in three minutes flat.

Use Shoo-Fly, the cow gives 25 to 35 per cent more milk. Sold by Koch Pharmacy.

Do Not Take Wrong Mail.

The postal authorities at Washington, recognizing the liability of postmasters to make mistakes in getting letters in the wrong boxes, have fixed a penalty of $200 on persons taking mail out of an office other than their own, and not returning it immediately. This law also includes the newspapers. The excuse that it is the postmaster's fault cuts no ice. If you have been getting other people's mail you had better take warning or you may get yourself into trouble.—Exchange.

Do you want to sell it? List it in Hosmer's stock sale next Saturday, July 10. 6-8

U. S. TRADE STILL GROWS

Despite War, Balance Is Greatest in History—Food Supplies Is Big Demand.

A $1,000,000,000 trade balance—the greatest in American history—in a year which has seen commerce depressed by eleven months of world war, is the commercial record of the United States. Official announcement is made at the department of commerce that at the closing of the fiscal year, June 30, it was certain that the $1,000,000,000 mark had been passed.

"The figures for eleven months, ending May 31," it was announced, "show a favorable balance of $983,117,479. As thirteen ports, which ordinarily handle 90 per cent of the country's foreign trade, show for June an export balance of approximately $60,000,000, it is now known that the excess of exports over imports has at this date exceeded $1,000,000,000, surpassing by nearly $400,000,000 the highest record heretofore made."

Figures indicating that the new high record would be made have been placed before President Wilson and the cabinet from time to time by Secretary Redfield. Only the official announcement was lacking. Generally, the showing was considered all the more gratifying because it was made despite the paralysis of ocean shipping and the stagnation in the cotton market which depressed America's second most valuable crop.

Department of commere experts point out that the immense trade balance is not owing to orders for munitions of war. In fact manufacturers generally other than of foodstuffs have been less than in the similar period before the war.

"The normal sales of manufacturers during peace," said an official statement on that point, "were greater than those under existing war conditions. Because of this fact and the extraordinary shrinkage of exports of crude materials it is found that the net increase in our total exports has been wholly in foodstuffs."

The movement of gold between the United States and the outside world, which at the beginning of the war was a subject of great concern, has been reversed in overwhelming ratio and represents payments for American exports.

"The inward flow of gold," says the department's announcement, "which became pronounced about the commencement of the current year, continued in May at an accelerated rate, imports amounting to $21,136,311, against $1,972, 411 in May, 1914. Gold exports totaled $1,277,554, compared with $16,835,202 in May, 1914. In the eleven months ending May 31, gold imports totaled $119,227,015, an increase of $56,505,468, while gold exports aggregated $143,402,160, an increase of $79,470,695 over a like period a year ago."

The nearest approach to the $1,000,000,000 record was in 1908 when a favorable balance of $666,000,000 was shown for the United States. In 1901 there was a balance of $664,000,000 and in 1913 of $652,000,000, while in 1914 the balance dropped to $470,000,000. The last time it showed against the United States was in 1893.

DODGE BROTHERS MOTOR CARS

There is no shortage in the general motor car market.

But there IS a shortage of Dodge Brothers motor cars.

It is NOT due to a small production, because the production has been large.

Twenty thousand of these cars have been distributed since January 1st.

This means a production in six months as large as is usually attained in as many years.

And yet there is a waiting list of those who want to be OWNERS in your city.

And there is a similar waiting list in almost every city and almost every town.

You will bear witness that we have made no extravagant claims for the car.

We have merely insisted on its goodness.

And still the car continues to be singled out as one worth waiting for.
